(11) Mahimai festival at Vellandi Valasai, from the 6th to the 17th April 1900, both days inclusive.

All pilgrims proceeding to the said festivals in contravention of this Notification will be sent back.

II.

Whereas His Excellency the Governor of Fort St. George in Council is satisfied that there is danger of an outbreak of plague at Sriperumbudur in the Conjeeveram taluk of the Chingleput district, if persons from the districts of Salem and Bellary, the Mysore Province, the Hyderabad State, the Bombay Presidency, the Central Provinces and other plague-infected parts are permitted to assemble at that town on the occasion of the ensuing Brahmotsavam festival of Sri Bhashyakaraswami :

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, His Excellency in Council prohibits attendance at the said festival, from the 17th April to the 3rd May 1900, both days inclusive, of persons from the places mentioned above, and also directs that between the said dates no tickets to travel by railway shall be sold within the districts of Salem and Bellary to the Arkonam Junction and the stations of Mosur, Chennamapet, Manur, Kadambattur, Tiruvallur, Sevvapet Road, Tinnanur and Avadi on the Madras Railway and Pallur, Conjeeveram, Walajabad, Villiampakkam, Chingleput, Singaperumal Koyil, Guduvancheri, Vandalur, Pallaveram and St. Thomas' Mount on the South Indian Railway to persons intending or believed to be intending to attend the festival.

All pilgrims proceeding to the festival in contravention of this Notification will be sent back.

III.

Whereas His Excellency the Governor of Fort St. George in Council is satisfied that there is danger of an outbreak of plague at Conjeeveram in the Conjeeveram taluk of the Chengleput district, if persons from the districts of Salem and Bellary, the Mysore Province, the Hyderabad State, the Bombay Presidency, the Central Provinces and other plague-infected parts are permitted to assemble at that town on the occasion of the ensuing Brahmotsavam festival of Sri Devarajaswami :

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, His Excellency the Governor in Council prohibits the attendance at the said festival, from the 4th to the 24th May 1900, both days inclusive, of persons from the places mentioned above, and also directs that between the said dates no tickets to travel by railway shall be sold within the districts of Salem and Bellary to the Arkonam Junction and the stations of Pallur, Conjeeveram, Walajabad, Villiampakkam and Chingleput on the South Indian Railway to persons intending or believed to be intending to attend the festival.

All pilgrims proceeding to the festival in contravention of this Notification will be sent back.

Letter No. 7522, dated the 9th April 1900, from the Plague Commissioner in Mysore.

Referring to para 4 of Government Proceedings No. Pg. 667-71, dated 15th December 1899, I have the honor to submit herewith a statement showing the prices recoverable and the amount recovered on account of sites allotted in the Basavangudi and Malleswaram extensions up to 20th March 1900, and to state that as, according to present arrangements, no time is fixed for the payment of the prices, it is desirable that Conditions 6 and 7 of the scrip should be altered as shown in the annexed revised copy and the prices recovered in six equal monthly instalments from the date of the issue of the scrip. I request, therefore, that the conditions of the grant as now revised be published in the *Mysore Gazette*, for general information and 2,000 copies of the scrip both in English and Kanarese supplied to the Deputy Commissioner, Bangalore district, for future use.

2. As regards the question of levying different rates of prices on sites on which building operations were commenced prior to 31st December 1899, and on those taken up before that date and built upon subsequently, I have to state that the time given in the Government Order was so short that people could not take advantage of the favorable terms therein offered owing partly to their ignorance of the Order which was dated 15th December 1899, and was not published until the 21st December 1899, and partly to want of water, labor, &c., on the spot and also to their desire to commence the work after the unlucky year *Vikari* was over. I would therefore request that the Government may be pleased to extend the time limit as regards the privileged rates specified in para 2 of Government Proceedings No. Pg. 667-71, dated 15th December 1899, up to 31st May 1900.

Statement showing the prices of sites recoverable and the amount recovered in Basavangudi and Malleswaram extensions, Bangalore City, up to 20th March 1900.

Name of extension.	Amount recoverable.	Amount recovered and credited to the Treasury up to 20th March 1900.	Balance to be recovered.	Remarks.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	
Basavangudi	30,134 13 4	4,425 6 0	25,709 7 4	
Malleswaram	30,961 2 7	2,331 1 8	28,630 0 11	

The following Conditions are laid down in connection with the grant of sites for building purposes in the Basavangudi and Malleswaram extensions of the Bangalore City.

CONDITIONS.

1. That possession be taken by the allottee of the site allotted within 8 days of the allotment.

2. That building operations be started within 30 days, and the building completed within 6 months from the date of allotment.

3. That not less than 50 feet in length of the site be permanently reserved as an open yard or air-space, without any erections of a temporary or permanent nature thereon.

4. That no building be commenced until the plan and specification of the same be approved of by the Sanitary Engineer. It is to be understood that no "Malige" or mud-roofed houses will be allowed: all buildings should be either tiled or terraced.

5. That the level of the floor and back-yard, the position of the privy for purposes of daily conservancy and the form and position of the house drain be as ordered by the Sanitary Engineer.

6. That the price fixed for the site be paid in six monthly instalments, the first instalment being paid with the receipt of this scrip. In cases in which the scrip has already been given, the first instalment shall be paid within one week after the publication of these conditions in the *Mysore Gazette.*

7. That a Government grant will be issued on completion of the building until which no transfer, sale or gift thereof will be valid.

8. That when the building is in a street set apart for a particular community, sect or caste, no person who belongs to another community, sect or caste shall reside therein, without the sanction of the Deputy Commissioner, accorded upon the written unanimous consent of the residents in that street.

9. That no pits be excavated in the sites allotted for building; but that all earth required for building or raising the level of the floor be obtained from such places as may be pointed out under orders of the Sanitary Engineer.

10. That breach of any of the above conditions will subject the allottee to summary forfeiture of the site hereby allotted.

11. That when the allotment is resumed on breach of any of the above conditions, neither the allottee nor the assignee will be entitled to any compensation or payment for any expenditure whatever incurred thereon.

ENDORSEMENT BY ALLOTTEE.

I do hereby agree and bind myself and my heirs and assignees to all the Conditions noted above; with a full knowledge whereof I hereunto affix my signature.

Signature of Allottee.

No. Pg. 1251-2, dated Bangalore, 12th April 1900.

Order thereon—**The unpaid balance of the price of sites sold in the extensions of the Bangalore City should be recovered as early as possible.**

2. **The conditions of the grant of sites as now proposed to be revised are approved and will be published in the *Mysore Gazette* for general information.**

3. **Under the circumstances represented, the limit of time as regards privileged rates specified in para 2 of Government Proceedings No. 667-71, dated the 15th December 1899, will be extended to 31st May 1900.**

Letter No. 7520, dated the 8th April 1900, from the Plague Commissioner in Mysore, submitting for orders a memo containing proposals for the reduction of Plague establishments in the State and stating that, in anticipation of sanction, he has forwarded extracts to the several Officers concerned so that effect may be given to the reductions from the 16th April 1900.

No. Pg. 1265-76, DATED BANGALORE, 17TH APRIL 1900.

ORDER THEREON—As proposed by the Plague Commissioner, the allowances drawn by the clerks of the Dewan's office, Plague Branch, will be discontinued and the services of the two temporary clerks and two peons employed therein will be dispensed with.

2. The services of the clerk on Rs. 25 in the office of the Inspector General of Police will be dispensed with as there is no need for a special clerk in that office as the Special Police on plague duty will be done away with and the ordinary police entrusted with plague work.

3. In the clerial establishment of the Plague Commissioner's office, the clerks noted in the * margin will be reverted forthwith to their former appointments and the services of the clerks and menials † marginally noted will be dispensed with.

* (1) T. R. Bhava Rao, Clerk, Dewan's office, Legislative Department.
(2) M. Babu Rao, ditto General Department.
(3) M. Venkata Rao, Clerk, Deputy Commissioner's office, Bangalore.

4. The peons of the Plague Commissioner's office thrown out of employment will be directed to report themselves to the Under-Secretary, General Department, for employment as vacancies occur.

5. Separate orders will issue on the Plague Commissioner's proposal to transfer the Plague establishment of the Bangalore City to the City Municipality.

6. In the Bangalore district, the office of the District Plague Officer will be abolished and the allowance of Rs. 50 a month now given to the Assistant Superintendent of Police will be discontinued.

7. Of the clerical and menial establishments attached to the Distric officet, a clerk on Rs. 30 will be retained and the remainder, costing Rs. 138, will be done away with. The establishment under "Observation" comprising Plague Inspectors, and Assistant Inspectors, dafadars and peons, costing Rs. 1,188 per month, will also be done away with, the net savings in the Bangalore district amounting to Rs. 1,826 per mensem.

8. In the Kolar district, the existing Plague establishment will be done away with, except a clerk on Rs. 30 for the District office and the temporary Disinfection establishment costing Rs. 122 per month sanctioned up to 8th May 1900. The establishment now employed in the Kolar Gold Fields will however be retained as the plague has not entirely disappeared there. The savings will be Rs. 94 per month.

9. In the Tumkur district, all the establishments except a clerk on Rs. 30 for the District office will be done away with, thereby effecting a saving of Rs. 263 per mensem.

10. In the Mysore City, the existing temporary establishment, costing Rs. 675 per mensem, will be retained (with the exception of the accountant in the Municipality on Rs. 15, whose services will be dispensed with) till the marriage festivities are over or till the end of the current official year when the whole establishment will be transferred to the Municipality.

11. In the Mysore district, the office of the District Plague Officer will be abolished. The Deputy Commissioner's office will be given a clerk on Rs. 30 for the plague work, the clerical and menial establishments in the District Plague office and French Rocks, amounting to Rs. 139 per mensem being abolished. Owing, however to the appearance of plague at Nunjangud and in view to adopt precautionary measures to prevent its spread elsewhere in the Mysore district, the *marginally noted establishment will be allowed for employment in such places as the Deputy Commissioner may think proper till the end of the current official year. The monthly savings in this district will be Rs. 1,580.

12. In the Hassan district, out of the existing establishment, costing Rs. 302 per mensem, only one clerk on Rs. 20 for the District office and one Inspector on Rs. 15 and two peons on Rs. 7 each for the Arkalgud taluk, where some suspicious cases have occurred lately, will be allowed and the rest of the establishment done away with. If more men are required for this taluk, the Deputy Commissioner may entertain temporary coolies for disinfection work, &c., if any, and report the fact to the Plague Commissioner. The net savings will be Rs. 233 per mensem.

13. In the Shimoga district, only one clerk on Rs. 25 will be allowed and the other establishments including the police establishment employed in the several frontier stations will be done away with. If, however, the Deputy Commissioner considers that the ordinary police in the district cannot cope with the additional work connected with Plague Prevention Measures, he may submit proposals to the Inspector General of Police for payment of a small temporary remuneration to the talaries from the Police budget. The savings in the district will amount to Rs. 659.

14. In the Kadur district, the small establishment costing Rs. 65 will remain for the present.

15. In the Chitaldrug district, all the establishments costing Rs. 1,243 per mensem will be done away with, except a clerk for the District office on Rs. 30.

16. As a result of the above arrangement the temporary police and plague establishments now employed in the several districts will be done away with from the 16th instant, the ordinary police being entrusted with the work connected with inspection and observation of passengers and disinfection of infected houses, &c.

17. The District Police Officer will, under the orders of the Deputy Commissioner, be responsible for carrying out the plague measures in the district and the Amildars and Police Inspectors of the several taluks will be responsible for the efficient working of the Plague Regulations in their taluks. Temporary coolies will be entertained by the police with the permission of the Amildar as

occasion arises for disinfection work, &c., for which purpose an imprest of Rs. 50 will be allowed for each infected taluk. The Amildars will intimate to the Deputy Commissioner through the District Police Officer, the number of coolies employed by them from time to time and obtain his orders on the subject.

18. In order to legalise the proceedings of the District Police Officers, a Notification adding "Superintendent or Assistant Superintendent of Police in the District" as one of the Plague Officers under clause A, Regulation 26 of the Additional Mofussil Regulations, issued under Government Notification No. 1289 —Mis. F. 21-96, dated 25th July 1898, will issue.

19. The Senior Surgeon and Sanitary Commissioner will be requested to report whether the marginally noted charges connected with the hospitals, &c., cannot be transferred to the Medical budget with effect from 16th April 1900.

Total	588

6. The Plague Hospital and Camp will be maintained as at present under the name of Epidemic Diseases Hospital.

7. Seven Registration offices will be established as particularised below and a Medical Registrar will be appointed in charge of each. The Registrar will usually be of the Hospital Assistant's grade not lower than 2nd class in rank. In the Divisions where Municipal dispensaries exist the medical subordinate in charge will be appointed Registrar on a consolidated monthly allowance of Rs. 20. Dispensaries will be opened in those Divisions where they do not exist at present.

Two Registration offices in No. I Division (including Malleswaram.)

The Hospital Assistant in charge of the Malleswaram dispensary will be one of the Registrars and the dispensary will be one of the Registration offices. The other office will be located in the present No. I Ward office situated near the Race Course.

Registration office in No. II Division will be located in the Old Taluk Cutcherry building where a dispensary will be newly opened.

Registration office in No. III Division will be located in the Arlepet dispensary. The medical subordinate in charge will be the Registrar.

Registration office for Nos. IV and V Divisions will be located in the Nagarthpete dispensary and the medical subordinate in charge will be the Registrar.

Registration office in No. VI Division will be near Kalaspalyam to which place the Fort dispensary has already been removed and the subordinate in charge will be appointed Registrar.

Registration office for No. VII Division will be opened either in the Basavangudi Extension or Chamrajpet, and a new dispensary opened in connection with it.

8. Under each of the Registrars, a number of Sub-Registrars will be appointed, the number varying according to the extent of the area under each jurisdiction. The sub-registrars will be distributed as follows :—

2	Sub-Registrars—one for each of the two Registration offices in No. I Division.		
2	Ditto	ditto	for No. II Division.
2	Ditto	ditto	for No. III Division
4	Ditto	ditto	for Nos. IV & V Divisions.
2	Ditto	ditto	for No. VI Division.
2	Ditto	ditto	for No. VII Division.
14			

The Sub-Registrars will be paid Rs. 12 each per month.

9. A midwife on Rs. 20, and 2 peons each on Rs. 7, will be appointed for each of the Registration offices.

10. It shall be the duty of the Registrars to receive, under the Epidemic Diseases Regulation, reports of all arrivals to and departures from their Divisions, to see sick cases reported, to control the movements of the people residing within their jurisdiction, to take necessary action in all plague cases, to register and certify all births and deaths, and in short, to exercise all the powers now conferred upon and all the duties pertaining to the Ward, Civil and Medical Officers. The Sub-Registrars shall assist the Registrars in maintaining the several registers prescribed (*vide* forms accompanying) and checking personally the information collected by the peons.

The midwives shall be employed in observing females in gosha families and the peons in collecting information of events in the several Divisions.

11. It shall be the duty of every house owner or head of a family to report under the Epidemic Diseases Regulation at the Registrar's office of the Division he may be residing in, all arrivals at, departures from, sickness, births and deaths that may occur in his house or family.

Note.—Arrivals, departures and births should be reported within 24 hours; sickness and death immediately. A certificate of death must be obtained in every case of death from the Registrar who shall grant it, if necessary, after inspection of the body, with as little delay as possible.

12. On the first day of June and December of each year, a half-yearly census of the City shall be taken in the following manner :—

Between the 25th and last day of the month preceding the 1st of June and December, census sheets (*vide* form accompanying) in duplicate shall be distributed to all house holders. These shall be duly filled in, signed by them, and the original shall be delivered to the Registrar, either at his office or in such other manner as may be prescribed on the first day of the half-year to which the census relates; the duplicate copy shall be kept by the house holder and pasted on some conspicuous part of his house (preferably the inside of the main door). The latter copy shall be open to inspection at any time of the day.

13. The Registrar shall maintain in his office correct registers showing particulars of people residing within his jurisdiction. These registers shall be posted every fortnight from the informations given by the house holders and that collected by the Sub-Registrars and peons. He shall also maintain a register of births and deaths and sick cases as per forms accompanying.

14. To assist the Registrars in the work of segregation when necessary, in taking mahazars of property left in infected houses after the removal of the inmates to the Camp and storing the same in a strong-room and taking charge of it and for conducting prosecutions under the Epidemic Diseases Regulations, the following establishments will be appointed.

		Rs.
1 Police Officer	... ...	45 + 15
8 Constables on	... ...	8 each.

The cost of this to be met entirely from Provincial Funds.

15. The Police Staff of 1 sergeant and 26 constables now employed for guarding burial grounds will, it is hoped, be done away with from the 1st April 1900, as promised by the President in his No. 457, dated 3rd December 1899, and watchmen appointed in their stead.

16. Regarding the cost of the proposed establishments, it seems fair that the Municipality should pay, if not the whole, at least a good portion of it. Under head I of the proposition statement, the Municipality will be called upon to pay the entire cost of the office establishments and contingencies amounting to Rs. 200 per mensem, the Government paying the Health Officer's allowance *viz.*, Rs. 200, as a temporary measure.

Under head II the entire cost amounting to Rs. 651 will be paid out of the Municipal Funds, registration of births and deaths being a charge properly debitable to these Funds.

The cost of disinfection amounting to Rs. 588 (head III) will also be met out of Provincial Funds as a temporary measure, any compensation when awarded being paid out of Municipal Funds.

The cost of the Epidemic Diseases Hospital will, as a temporary measure, be met in equal shares from Municipal and Provincial Funds.

The Health office establishment, the Registrars and their establishments and the establishment attached to the Epidemic Diseases Hospital will be borne on the permanent lists while the Disinfection and Camp establishments will be on the temporary list.

Letter No. A, dated the 5th April 1900, from the President, City Municipal Commission, Bangalore, to the Plague Commissioner in Mysore.

I have the honor to state that the memorandum regarding the proposed reorganization of the Plague establishment for the City received with your docket No. 7129, dated the 19th ultimo, was placed before the Board at their meeting held on the 29th ultimo. The financial portion of the proposal was discussed and accepted by the Board and a copy of their Resolution is herewith submitted for information. A report regarding some of the details of the scheme will follow.

Extract from the Proceedings of the City Municipal Commission at the meeting held on the 29th March 1900 :—

10. Docket No. 7129, dated 19th March 1900, from the Plague Commissioner, forwarding a Memo containing proposals for the reorganization of the Plague establishments in the City and calling for the opinion of the Board in the matter.

Proposed by Mr. Cameron and seconded by Mr. D Venkatramaiya that the proposals contained in the Plague Commissioner's Memorandum be accepted generally with the alteration that in the interests of the public and the municipality, a full-time Health Officer instead of an *ex-officio* Health Officer may be appointed for the City to work under the orders of the President. Carried *nem con.*

No. Pg. 1291-3, dated Bangalore, 19th April 1900.

Order thereon—The proposals made in the letter and memo read above, and generally accepted by the Bangalore City Municipal Commission, are approved, the date on which effect will be given to the same being intimated to the Comptroller direct by the Plague Commissioner.

2. The Municipal Commission should, as early as possible, arrange for the appointment, as desired by them, of a full-time Health Officer payable from its own funds. Pending such appointment, the Civil Surgeon will, as proposed, be the Health Officer on an allowance of Rs. 200 a month and in addition to his own duties.

3. The cost of the present establishments is Rs. 5,396 while that of the reduced establishments will be Rs. 2,700, thus showing a saving of Rs. 2,696 a month. Rupees 1,435 out of the said Rs. 2,700 will, as recommended by the Plague Commissioner, be debited to Provincial Funds as a temporary measure till the finances of the Municipal Commission are improved. The Commission should use its best endeavours to find funds as early as practicable to enable it to meet the entire charge.

To—The Plague Commissioner in Mysore.
The President of the Bangalore City Municipal Commission.
The Comptroller to the Government of Mysore.

No. Pg. 1294. Dated Bangalore, 21st April 1900.

It is hereby notified for general information that the attendance of persons from the Mysore State at the Garudotsavam festival at Pushpagiri, Cuddappa taluk, Cuddappa district, has been prohibited by the Madras Government, from the 26th April to 5th May 1900, under the Epidemic Diseases Act.

By Order,

EDUCATION

Proceedings of the Government of Mysore,

READ—

(1) Letter No. 2988—110, dated 21st September 1899, from the Inspector General of Education in Mysore.

I have the honor to inform you that at the request of Mr. M. Srinivasa Rao, B. A., Deputy Inspector of Schools, Mysore District, South, I lent the use of the Magic Lantern and slides belonging to the Educational Library to M. D. Krishnasamiengar, a professional exhibitor, for the purpose of exhibiting the slides which chiefly relate to geographical and other educational subjects to school children. The Deputy Inspector took him along with him on his tour of inspection from February last. In a tour extending over seven months, he travelled 700 miles and gave magic lantern exhibitions in 82 schools to more than 4,300 pupils and 2,000 adults connected with the school children or living in the neighbourhood of the schools. Fees varying from six pies to two annas were charged for admission, but girls and their relatives and Panchama pupils with their relatives were admitted free. From these fees the exhibitor realised an average monthly income of Rs. 30. The lantern exhibitions have been a source of instruction and pleasure to school children and have become far more popular than I expected. The Head Masters of the schools in which the exhibitions took place speak enthusiastically of the instruction imparted in a pleasant form and request that the exhibitions may be always given in future at the visits of the Inspecting Officers. I intend in course of time to provide a lantern with an assortment of educational slides for the use of each Inspecting Officer. But at present most of them are not used to manipulate a lantern. I request therefore that Government will be pleased to sanction a grant-in-aid of Rs. 40 a month, for eight months in the year, as a remuneration to M. D. Krishnasamiengar, from the Village School Fund, so that the useful work of giving the exhibitions commenced in Mysore District, South, may be continued in other districts until the Inspecting Officers themselves become accustomed to the use of the lantern. No travelling allowance will be paid, and it may be made a condition that the monthly grant will not be paid unless the Deputy Inspector of a district certifies on the grant-in-aid bill that Krishnasamiengar was out on tour in his district for not less than twenty days in the month.

2. The amount required for this year will be Rs. 320 which may be sanctioned from the savings of the Village School Fund budget, a similar amount being provided in future budgets for a few more years under the head of grants-in-aid.

(2) Docket No. 3707—153, dated 11th October 1899, from the same Officer, stating, with reference to this office No. 4593—Ed. 168 of the 6th idem, that a sum of Rs. 150 will provide a lantern and about 100 educational slides for a Deputy Inspector and that, as funds become available from the provision for the Educational Library, this supply will be made in due course, to each of the nine Deputy Inspectors, five Assistant Deputy Inspectors, and the three Normal Schools.

No. 11036-37—Ed. 454, DATED BANGALORE, 5TH APRIL 1900.

ORDER THEREON—The proposals made by the Inspector General in the first of the letters read above, are approved tentatively for two years and Mr. Krishnasamiengar will accordingly be employed eight months in the year and paid at the rate of Rs. 40 per mensem, the charge being debitable to the Village School Fund budget. He should be deputed to each of the Deputy Inspectors by rotation so that they may all receive the necessary instruction within a reasonable time. Arrangements should also be made for the supply of additional lanterns with the necessary complement of educational slides, as proposed in the Inspector General's docket No. 3707, dated 11th October 1899, read above.

READ—

Correspondence ending with the following letter No. 9070—414, dated 24th March 1900, from the Inspector General of Education in Mysore, on the subject of establishing a Government Hindustani School at Tarikere, at a monthly cost of Rs. 45, in lieu of the grant-in-aid of the same value paid to the late Aided Anglo-Hindustani School there.

With reference to your docket No. 8630—323, dated 26th January 1900, I have the honor to inform you that Haji Rasul Khan, Coffee Planter of Tarikere has given a muchalika placing the building of the late Aided Anglo-Hindustani School, of which he sends a rough sketch, at the disposal of the Department, so long as Government maintain a Taluk Hindustani School at Tarikere.

2. Under these circumstances I request that the proposals for establishing a Government Hindustani Taluk School at Tarikere at a cost of Rs. 45, which was the amount of grant-in-aid paid to the Aided Anglo-Hindustani School, may be sanctioned, and the pay of a Matriculated Mahomedan on Rs. 25, to be appointed on the staff of the Anglo-Vernacular School at Tarikere, may be ordered to be included in the budget of 1900.

3. Haji Rasul Khan represents that the order, sanctioning the establishment of the Taluk Hindustani School, may be given retrospective effect from the 1st January 1900, from which date the grant of Rs. 45 ceased, so that some of the Hindustani teachers and the peon, who have been working gratis since the 1st January 1900, may be paid. I agree with him and request that the proposed scale may be sanctioned from 1st January 1900.

No. 11272-3—ED. 472, DATED BANGALORE, 12TH APRIL 1900.

ORDER THEREON—Under the circumstances represented in the closing letter read above, Government are pleased to sanction the opening of a Government Hindustani School at Tarikere at a monthly cost of Rs. 45, (which was the grant paid to the late Aided Anglo-Hindustani School, with effect from 1st January 1900. The Inspector General is requested to take the necessary steps to see that the pay for past months is disbursed to the teachers entitled to it.

2. The consideration of the proposal to attach from 1st July 1900 a Mahomedan Matriculate to the Anglo-Vernacular School for the benefit of the Mahomedan boys, will be deferred for about six months or so by which time Government will be able to see how the school under Government management progresses and what its strength is, so as to justify the extra cost proposed for imparting English instruction.

I. Letter No. 225, dated 27th October 1899, from the Principal, Central College, Bangalore, requesting that the State Geologist may be asked to suggest a scheme of excursions to be made on Saturdays and Sundays or other holidays, by the students of the Geological classes of the College, to places within easy reach of Bangalore, with the view of obtaining practical training, and stating that the students of the Presidency College, Madras, make similar excursions, the Government paying the travelling charges of the students while the teacher draws travelling allowances in accordance with the Government prescribed rates.

II. Letter No. 185 G., dated 16th April 1900, from the State Geologist and Secretary to Government, Geological Department, stating, with reference to this office docket No. 5996—Mis. 912, dated 11th November 1899, that there is no objection to the Geological Lecturer taking his students on short trips near about Bangalore, but if the excursions are to be of any real advantage to the students, two excursions of a week or two at a time, may be made in the year, to places of geological interest not necessarily in the neighbourhood of Bangalore, one for the senior students about the end of April, and the other for the juniors at a later period of the year; that in the immediate present, the Lecturer may take the senior students for a period of 14 days during the ensuing College Vacation, on

an excursion in the parts of the Chiknayakanhálli and Hiriyur taluks ; that a sum of Rs. 150 may be advanced to Mr. Sambasiva Iyer, the Geological Lecturer, for the expenses of the trip ; that if needful, the State Geologist will advance the amount ; that arrangements be made with the Railway Company to allow the students to travel by the 2nd class on payment of 3rd class fares ; that the Principal, Central College, may be requested to give the necessary instructions as to the arrangements to be made for the students, while the programme of work to be done during the excursion will be settled by himself in consultation with the Lecturer.

III. Letter No. 588, dated 19th April 1900, from the Principal, Central College, stating, with reference to the State Geologist's letter read above, that he has no objection to the Geological Lecturer taking the students on short excursions on other days than Saturdays and Sundays, provided they are College holidays and provided that such excursions do not interfere with the teaching of the Language Branches ; that the expenses incurred should be debited to the College and paid and accounted for through the Principal and not through the State Geologist ; that Government may sanction a sum of Rs. 250, for the present year only, to be drawn by the Principal as contingencies, and devoted to the present proposed excursion and any other petty trips that may be undertaken during the year ; that it may be left to the Principal to exclude from the privilege of these excursions any student for irregularity or unsatisfactory conduct ; and that a report from the Principal as to the results of the first year's excursions may be awaited by Government before the grant is renewed next year.

No. 11626-9—Ed. 493, DATED BANGALORE, 20TH APRIL 1900.

ORDER THEREON—The proposed geological excursions for this year are sanctioned on the understanding that they will be easily arranged for during the College holidays so as not to interfere with the general teaching of the students in other subjects. The programme of work will of course be settled by the State Geologist in communication with the Lecturer.

2. As in Madras, the actual travelling expenses of the students, who are sent for geological excursions will be paid by Government, but no batta will be allowed. The Lecturer, who accompanies the students during the proposed excursions will draw his travelling allowances under the rules in force, the charge being met from the budget of the Geological Department.

3. The Principal will be so good as to ascertain if the Railway Company will allow the concession suggested by the State Geologist and permit the students to travel in the 2nd class paying 3rd class fares.

4. Mr. Cook proposes to exclude from the privilege of these excursions any student for irregularity or unsatisfactory conduct. It is hoped there will be no occasion for such an exclusion. In such a case, however, a more suitable punishment would be to make the student bear his travelling expenses.

5. A sum of Rs. 250, to be met out of General Savings of the Education budget, is sanctioned as a temporary addition to the contingent grant of the Bangalore Central College, and placed at the disposal of the Principal, who will advance therefrom such sums as may be required by the Lecturer to defray the travelling allowances of the students, bills for expenses actually incurred being transmitted in the usual course to the Comptroller for audit by the Principal of the College.

6. The Government will be glad to have, through the Principal, a report from the Geological Lecturer as to the results of the first year's excursions, to enable them to decide as to the necessity or otherwise of continuing these excursions.

Letter No. 9712—451, dated 11th April 1900, from the Inspector General of Education in Mysore, requesting sanction to the opening of a Kannada and a Hindustani school in the New Barr Lines at Mysore for the education of the children of the Officers and men of the Barr Force.

No. 11660—ED. 494, DATED BANGALORE, 21ST APRIL 1900.

ORDER THEREON—Government observe that it is difficult to understand the principle upon which the above proposal has been made. The separate education of the children of Military Officers and men in service is not a matter which can well be provided for out of the funds placed at the disposal of the Inspector General. If there are boys or girls belonging to the new Barr Lines at Mysore, who are anxious to be educated, the best plan is to induce them to attend any of the schools in the neighbourhood. If proposals for the establishment of schools for separate classes and close to their own homes be entertained, numerous applications of the kind will be received, which it would be impossible to meet out of the pecuniary resources available to Government.

Letter No. 9784—455, dated 10th April 1900, from the Inspector General of Education in Mysore, requesting sanction to the appointment of an additional hand on Rs. 7 a month, with effect from 1st July 1900, for the Anglo-Vernacular School at Nagamangala, and stating that the additional hand is required to teach a class consisting of the children of the barbers at the place, as the parents of the children belonging to other sections of the Hindu community object to the children of barbers being seated with their own children.

No. 11710—ED. 495, DATED BANGALORE, 23RD APRIL 1900.

ORDER THEREON—The reason assigned in support of the proposal to open a separate class for imparting instruction to barbers does not commend itself to Government, who are not aware of any objection of the kind now raised having been preferred at any time before this, either at Nagamangala or elsewhere, to the admission of children of the barber caste into Government schools. It seems open to question that social distinctions should be encouraged in public schools, especially in those established in Taluks and District head-quarters, so as to place restrictions against the admission of any particular caste or creed, and it would not be sound policy to do so. The Government will however be glad to be favored with the further views of the Inspector General, should he consider that the matter deserves re-consideration.

S. Hay, Assistant Superintendent of Police, Kolar Gold Fields, in Notifications Nos. 9517—J. 877, dated 17th February 1900 and 10520—J. 1035, dated 21st March 1900.

No. 10905-6—J. 1101, DATED BANGALORE, 2ND APRIL 1900.

ORDER THEREON—Upon a careful consideration of the proposals submitted by the Inspector General, Government are of opinion that the best arrangement would be to make the taluks of Bowringpet (including the Gold Fields), Malur and Mulbagal, one Police charge with head-quarters at Ooregum and the rest of the district another Police charge with head-quarters at Kolar. This arrangement should be tried, tentatively, during Mr. Hay's absence on leave or until further orders.

2. Mr. C. Haudin, Superintendent of Police, will be placed in charge of the former with head-quarters at Ooregum, and Mr. C. Narain Rao, acting Assistant Superintendent of Police in charge of the latter with head-quarters at Kolar.

3. A report as to the working of this arrangement should be submitted at the end of the period mentioned above.

Letter No. 588—31, dated the 6th January 1900, from the District Magistrate, Shimoga, stating that it is hard to require a license to be taken out at a cost of Rs. 10 for every act of transport of arms, &c., from one place to another in the same district, and suggesting that free transport licenses may be prescribed for the purpose under Rule 1 of Part III of the Rules issued under the Mysore Arms Regulation 1890.

No. 11662-63—J. 1161, DATED BANGALORE, 21ST APRIL 1900.

ORDER THEREON—The Rule in question (which, it is observed, is the same as that in force in British India) is based on grounds of public policy irrespective of considerations of mere distance; and accordingly the Government consider it inexpedient to alter the same in the manner suggested by the District Magistrate of Shimoga.

Letter No. 684, dated the 16th April 1900, from the Inspector General of Registration in Mysore, recommending the confirmation as a 2nd grade Sub-Registrar of K. Venkatasami Iyer, with effect from 1st October 1899, and requesting sanction to rank him next to Nanjundiah in the half yearly list of Sub-Registrars.

No. 11768-69—J. 1167, DATED BANGALORE, 24TH APRIL 1900.

ORDER THEREON—The confirmation of K. Venkatasami Iyer in the 2nd Class of Sub-Registrars, is sanctioned as recommended.

2. As regards the proposal to rank Venkatasami Iyer next to Nanjundiah amongst the several 2nd Class Sub-Registrars in the State on the ground that prior to his appointment as Sub-Registrar he held a ministerial appointment on Rs. 50 since 1st July 1897, the Inspector General's attention is drawn to Government Order No. 11202 -J. 1216, dated the 11th March 1898, which lays down that the dates of appointment to the present grade, must, of course, determine the relative rank of the Officers concerned and that an official newly appointed to any grade of Sub-Registrars which is a gazetted appointment made by Government, cannot be placed over a Sub-Registrar already in the grade for the mere reason that the former in a ministerial capacity has had longer service than the latter. The half yearly printed list should be revised accordingly and the Inspector General is requested to submit a correct list to Government as early as possible. On comparing the list of Sub-Registrars as they stood on 1st January 1898, received with the Inspector General's letter No. 813, dated 14th April 1898, with the one submitted with the present communication No. 684 cited above, it is observed that there is a great difference as regards the relative rank of some of the Sub-Registrars. This needs explanation or correction.

Correspondence ending with letter No. 768—641, dated 5th March 1900, from the President, District Fund Board, Shimoga, submitting for sanction the revised District Fund Budget of the Shimoga Circle for 1899-1900.

No. 11575-8—L. F. 51-98, DATED BANGALORE, 19TH APRIL 1900.

ORDER THEREON—The additions proposed by the President are given below :—

	Rs.
Opening Balance	19,071
Expenditure.	
A. Public works to be executed by P. W. D.—	
I. Original works	7,900
B. Public works to be executed by Revenue Officers—	
I. Original works	760

2. *Opening Balance.*—Instead of the approximate balance of Rs. 9,833 sanctioned in the original budget, the actual balance (Rs. 28,904) furnished by the Comptroller is entered in the present budget, which is passed.

3. *A and B—Public Works.*—The additional provisions under these heads are required for carrying out certain new works, which are stated to be very necessary. The provisions are passed. As, however, the revised budget does not provide for establishment charges on the additional grants proposed, the correct provision at 17½ and 10 per cent, respectively, will be entered and the estimates raised accordingly by Rs. 1,382 and Rs. 76.

4. *C.—Civil Charges—I. Office Establishment.*—Exclusive of contributions towards the Dewan's and Comptroller's office establishments, of which Local Funds have been relieved, the sum payable by the District Funds of Shimoga towards the cost of Local Fund establishments under Government Proceedings No. 5212-20—L. F. 3-97, dated 31st October 1899, is Rs. 1,140. Adding to this Rs. 100 on account of travelling allowance, the correct provision to be entered is Rs. 1,240, which will be adopted in the present budget.

5. The budget estimates of the Shimoga Local Fund Circle as now revised will stand as per particulars given in the accompanying appendices of which an abstract is given below :—

	Rs.	Rs.
Opening Balance		28,904
Estimated Receipts for 1899-1900		79,750
Total including Balance ..		1,08,654
Expenditure.	Rs.	
A. Public works to be executed by the P. W. D. ..	63,673	
B. Ditto by Revenue Department..	25,245	
C. Civil charges	17,847	
		1,06,765
Closing Balance		1,889

6. From the above it appears that the closing balance is less than the prescribed minimum by Rs. 18,048. Every endeavour should be made to effect savings in the sanctioned allotments so as to maintain the usual working balance.

L. B. B.—MUNICIPAL FUNDS

Proceedings of the Government of Mysore,

READ—

Letters Nos. 78 and 213, dated 31st July and 19th September 1899, respectively, from the President of the Mysore City Municipality, submitting the Administration Report of the City Municipality for 1897-98.

No. 11098-11103—L. F. 38-98, DATED BANGALORE, 7TH APRIL 1900.

ORDER THEREON—The Municipal Board which consisted of six *ex-officio* and 14 non-official members, held 14 meetings during 1897-1898 against 16 in the year previous. The average attendance of members was the same as in the preceding year, *viz.*, 12·5. The number of Sub-Committees formed for various purposes was 5.

2. The income of the Municipality during 1897-98, including the opening balance on the 1st July 1897, was Rs. 1,74,905, of which Rs. 1,31,187 was spent, leaving a balance of Rs. 43,718 at the end of the year. There was an appreciable increase of revenue during the year under the main heads of receipts, while there was a decrease of Rs. 11,090 under "Expenditure," the ratios of which under major heads were as shown below :—

1.	Establishment	·167
2.	Public and Sanitary Works	·304
3.	Conservancy	·191
4.	Lighting	·061
5.	Education	·071
6.	Charitable grants	·051
7.	Other items	·155

The incidence of taxation proper per head of the population in the Mysore City was Rs. 1-5-4 as against Rs. 1-3-9 in the Bangalore City and the same was made up as follows :—

	Rs.	a.	p.
Octroi	0	13	8
House tax	0	3	6
License receipts	0	2	0
Mohatarfa	0	1	10
Other taxation	0	0	4

3. Loom-tax was abolished under the authority conveyed in Proceedings No. 1711-21—L. F. 150-96, dated 31st July 1897, and the total demand including arrears under the other main heads of taxation, *viz.*, house, shop, oil mill and cart taxes, was Rs. 51,233, of which so much as Rs. 26,627 or 52 per cent remained uncollected at the end of the year. The result, which leaves more than one-half of the demand uncollected, cannot be deemed satisfactory.

	Demand	Collection	Balance
House-tax current ...	16,463	6,653	9,810
Arrears ...	15,440	9,937	5,503
Mohatarfa current ...	7,954	3,354	4,600
Arrears ...	11,376	4,662	6,714
Total...	51,233	24,606	26,627

4. Under the head of "Conservancy" a larger expenditure than in the previous year was incurred owing to the employment of additional sweepers. Government, in Proceedings Nos. 12971-72—L. F. 204-93 & 16525-6—L. F. 204-93, dated 11th April 1898 and 18th June 1898, respectively, sanctioned a loan of

Rs. 1,17,255 for the improvement of the sanitation of the city; but no portion of this seems to have been utilised during the year owing apparently to the sanction having been accorded late in the year. The diversion of the sewage water falling into Subbarayankere and the filling up of the Dodkere feeder running through Krishnarajmohalla, both works of great usefulness, are stated to be under execution by the Sanitary Department.

5. Out of a total grant of Rs. 56,546 sanctioned for Public Works, only Rs. 38,887 was spent, leaving a large sum of Rs. 17,659 or 31 per cent to lapse at the end of the year. More energetical action is called for to ensure the budgetted allotments being turned to account as far as practicable.

6. The number of births rose from 2,059 to 2,493 and of deaths from 1,494 to 1,898. The greatest mortality was from fever, the number registered being 863 against 673 in the year previous. The rate of mortality was high.

7. The number of persons vaccinated was 2,541 against 2,741 in the previous year.

8. Under the authority conveyed in Government Proceedings No. 9158-60—Ed. 231, dated 5th February 1898, grants hitherto paid to High Schools were discontinued from the month of March 1898 in view to the savings being utilized towards the payment of grants to Pial Schools.

9. There was a great delay in the submission of the report. It is hoped that there will be no necessity again to point out this want of punctuality.

C. SREENIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The President, Mysore City Municipal Commission.
The Comptroller to the Government of Mysore.
The Senior Surgeon with the Government of Mysore.
The Inspector General of Education in Mysore.
The Chief Engineer with the Government of Mysore.
The Sanitary Superintending Engineer, through Chief Engineer in Mysore.

READ—

The Administration Report of the Bangalore City Municipality for 1897-98 received with President's letter No. 34, dated 23rd August 1899.

No. 11092-7—L. F. 38-98, DATED BANGALORE, 7TH APRIL 1900.

ORDER THEREON—The Municipal Board of the Bangalore City consisting of 6 *ex-officio* and 15 non-official members held 12 ordinary meetings. The average attendance of the *ex-officio* and non-official members at each meeting was 2·83 and 9·9, respectively, against 2·06 and 6·93 of the previous year.

2. The Municipal Regulations of 1871 as amended by Notification No. 108, dated 6th April 1885 and Regulation I of 1890 continued to be in force throughout the year. The Epidemic Diseases Regulation I of 1897 and the Rules thereunder gave the Municipality certain special powers for the enforcement of measures for the prevention and suppression of plague.

3. Exclusive of the opening balance of Rs. 26,997, the receipts of the year 1897-98 under all heads amounted to Rs. 1,63,145 or Rs. 4,663 less than those of the previous year, while the expenditure rose from Rs. 1,58,173 to Rs. 1,78,756 including Rs. 714, the cost of constructing additional buildings to the pilgrims'

chattram at Bangalore as per transfer entry made in the Comptroller's accounts as per particulars given in the following statement:—

4. Leaving out of account extraordinary items, such as grants-in-aid from Government, there was a general falling off of revenue under main heads, notwithstanding the fact that the introduction of lighting tax under the authority conveyed in Government Proceedings No. 1923-28—L. F. 276-96, dated 4th August 1897, brought in an additional revenue of Rs. 3,185 during the year. The increase under "Head Office," "Collection" and "Conservancy" was due to the employment by the Municipality and by the head-quarter offices of certain additional hands, &c., sanctioned by Government during the year.

The incidence of taxation per head of population in the Bangalore City was Rs. 1-3-9 as against Rs. 1-5-4 in the Mysore City.

5. It is stated that in the V, VI and VII Divisions of the City, the general revision of taxes ordered in Proceedings No. 8177-86—L. 647, dated 27th October 1891, has not yet been completed and that the past year was not a favorable one for the revision being effected. It is hoped that the taxes will soon be revised and a report on the result submitted to Government.

6. *Para 43.*—A remark has been made under the head "Contributions" that the contributions now made for the maintenance of suburban and District Fund roads within municipal limits is inadequate. This should form the subject of a separate communication.

7. During the year under review, sanction was accorded to the employment of a Sanitary Inspector on Rs. 60 + 20 per mensem and of an additional conservancy staff consisting of 2 Overseers, 22 totis and sweepers and 6 peons and mestris and the system of daily conservancy was extended to 2,775 houses, 401 cess pits having been closed. In addition to this, a temporary conservancy establishment was also employed and special attention given to the sanitation of the City. On account of special sanitary measures a sum of Rs. 14,790 was expended from Municipal Funds during the year.

8. The plague prevention measures referred to in para 85 of the report for 1896-97 were continued during 1897-98.

9. The total expenditure incurred on Public Works was Rs. 46,892 against Rs. 45,945 in the year preceding.

10. The total number of deaths registered from all causes rose from 1,161 in 1896-97 to 1,935, while that of births fell from 1,942 to 1,841. There was an appreciable increase of mortality under the heads "Small-pox," "Bowel-complaints" and "Fevers."

11. The number of patients treated in the several medical institutions supported from Municipal Funds was 53,612 against 55,537 of the previous year; the cost incurred being Rs. 12,369-10-5 against Rs. 11,48 6-13-11, respectively.

12. There was a large decrease in the number of labor cases attended to by the midwives, the decrease, (from 516 to 214) 302, being due to two out of four midwives having been deputed for plague duty and to one of the remaining two having been on leave during the greater part of the year.

13. The number of vaccine operations performed during 1897-98 was 1,670 against 1,935 in the year preceding, the percentage of successful cases being 99·58 against 98·39, respectively.

14. The aggregate expenditure incurred by the Municipality on education during 1897-98 was Rs. 11,583-9-0 or Rs. 1,264 8-1 more than in the previous year. The increase was mainly due to the Grant-in-aid Anglo-Vernacular School at Chamarajendrapete, having been taken over by the Municipality for maintenance in accordance with Government Proceedings No. 4861—E. 129, dated 3rd November 1898.

15. There was a great delay in the submission of the above report, which was due in this office on 1st October 1898 but was not received for nearly 11 months after that date. Such delays should be avoided in future.

Letter No. 464, dated the 27th February 1900, from the President of the Mysore City Municipal Commission, requesting sanction (1) to the employment of seven Registrars of Births and Deaths on Rs. 7 each, and an Inspector on Rs. 25 with an allowance of Rs. 10 (2) to the payment of an allowance of Rs. 2 to each of the seven Central Police Station-house writers for helping the Registrars, and (3) to the introduction of compulsory registration of Births and Deaths.

ALSO—

Letter No. 482, dated the 2nd March 1900, from the same Officer stating that seven Registrars and an Inspector have been employed from the 1st March 1900 in anticipation of Government sanction, as the Plague Department dispensed with the services of 40 Registrars.

AND ALSO—

Letter No. 565, dated the 15th April 1900, requesting early sanction to the proposals made in the first two letters read above.

No. 11931-2—L. F. 63-99, DATED BANGALORE, 30TH APRIL 1900.

ORDER THEREON—The employment of seven Registrars on Rs. 7 each, and an Inspector on Rs. 25 + 10 per mensem, from the 1st March 1900, is sanctioned, as a tentative measure, for a period of one year, at the end of which, when sufficient experience shall have been gained, a report on the working of the arrangement should be submitted.

2. This extra charge will be met from the provision made for it in the supplemental budget now before the Government.

3. The Government are not prepared to sanction the President's proposal to pay an allowance of Rs. 2 to the several Station-house writers.

4. Government have no objection to the introduction of the proposed system of compulsory registration, for which there is a statutory provision, the enforcement of which requires no special sanction.

The following letter No. 1417—108-95, dated the 24th March 1900, from the First Assistant to the Resident in Mysore, to the Dewan of Mysore:—

I am directed to request that the present heading of column 8 of return showing the state of coffee cultivation, a specimen form of which was furnished with this office letter No. 2711, dated the 18th July 1895, may be replaced by the words: "Area taken up by planters but not planted." These words express accurately the object and intention of the Government of India which were merely to ascertain the whole area taken up for and in connection with the coffee industry, and the portion of that area on which coffee is actually grown from year to year (columns 5 to 7).

No. 7027-34—R. F. 118 OF 97-98, DATED BANGALORE, 3RD APRIL 1900.

ORDER THEREON—With reference to the letter read above, Deputy Commissioners are requested to alter as shown below the heading of column 8 of the Statement of Coffee Cultivation, prescribed in Government Proceedings No. 10188-'96—R. 4013, dated 22nd May 1896 :—

Present heading—	*To be altered into—*

READ—

The following papers on the subject of the amendment of Rule XXVII of the Mysore Land Revenue Rules relating to the sub-division of survey fields :—

(1) Letter No. 914—225, dated 7th September 1893, from the Deputy Commissioner, Kolar district.

Adverting to para 8 of the Government Proceedings No. 7382-92—Cir. 154, dated the 18th September 1890, directing that where in consequence of any material difference in the several portions of a survey field subdivided by Revenue Officers for purposes of granting darkhasts, &c., a proportionate distribution between the subdivided portions of the assessment of the entire field is considered inequitable, the aid of the Survey Department should be obtained for apportioning the assessment, I have the honor to submit for information the accompanying correspondence (in original) ending with the Survey Superintendent's Yadi No. 3218, dated the 28th ultimo regarding certain cases of the above description referred to him for needful action. It will be observed from the same that that officer states that the assessment cannot be accurately fixed without a re-classification of the lands and that such classification cannot be done without the orders of Government.

2. I therefore solicit the favor of early instructions as to the procedure to be adopted in the matter.

3. I have in the meantime directed the taluk officers to grant the sub-divided lands to the applicants subject to the payment of such assessment as may be fixed hereafter as any delay in the disposal of darkhasts will cause loss to Government and inconvenience to the raiyats, who might lose the cultivation season.

(2) Government Order No. 6346-54—R. F. 318-92, dated Bangalore, 29th September 1893.

It has been brought to the notice of Government that when subdivisions of survey numbers are effected under Rule XXVII of the Revenue Rules, Deputy Commissioners insist upon the sub-numbers being demarcated in the manner prescribed by Rule 30 for whole survey numbers.

2. This is not only unnecessary, but Government are also of opinion that the boundary marks of sub-numbers should have a distinct character, so that the sub-numbers may be easily distinguished from the original survey numbers.

3. In Madras the prescription of the size and nature of such minor boundary marks is left to the discretion of village officers, but as Government consider it essential to secure uniformity of practice in the matter of sub-numbers as well, the Survey Superintendent is requested to report what kind of marks he would prescribe so as to ensure greater cheapness, a fair degree of permanency and the clear recognition of their boundaries.

4. The provisions of the Revenue Code and Rules in regard to the repair and maintenance of boundary marks apply to the boundary marks of sub-numbers, and Deputy Commissioners on whom the responsibility for the preservation of the marks devolves, should exercise a strict supervision over boundary marks of all descriptions.

(3) Letter No. 322, dated 14th November 1893, from the Superintendent of Revenue Survey in Mysore.

I have the honor to acknowledge the receipt of the proceedings of Government Order No. 6346-54—R. F. 318-92, dated 29th September 1893, issuing instructions regarding the fixing of boundary marks for subdivision of survey numbers carried out under Rule XXVII of the Rules under the Land Revenue Code.

2. The boundary marks used in the regular survey are earthen mounds and stones. This being the case, the field for selection of a different and distinct kind of demarcation for subdivisions of survey numbers becomes very much narrowed, especially when cheapness as well as permanency are *desiderata* But before reporting further on this matter I would earnestly, and in no captious spirit, ask the Government to take into consideration a few remarks which I wish to make upon the larger and parent question of subdivision of land used for the purposes of agriculture.

3. I have frequently urged upon Government that the subdivision of survey fields in the manner, and to the extent, laid down in Rule XXVII of the Rules under the Land Revenue Code, is inconsistent with the principles of the Survey Settlement and is even opposed to the Code itself. After a protracted discussion of this identical question in Bombay, the Government, in their Resolution No. 4892, dated 18th June 1884, stated their conclusions, from which I beg to quote one or two passages.

Mysore Section 109.—"6, The condition of the survey number or unit is laid down in "Section 98, *viz.*, that it shall not be less than a fixed minimum. This condition is carefully "upheld in other Sections. Thus in Section 113, a partition which would sub-divide "land in a way to make survey numbers below the minimum is not permitted."

* * * * * * *

Again in Government Resolution No. 357, dated 15th January 1889, alluding to Section 98, Bombay and the Rules under it.

* * * * * * * *

"These Rules are even held binding in the case of partitions under decree of a "Civil Court."

4. The correspondence is too lengthy to quote, but the upshot was the framing of Bombay Rule 55 as it now stands, from which I quote :—

* * * * * * * *

"(1) (*a*) Every occupancy separately recognized in the village accounts, if not less in "extent than the minimum for survey numbers fixed in relation to such lands under Section 98, "shall be separately measured, classified and assessed and defined by boundary marks and shall "be made a survey number."

"(b) Every occupancy separately recognized in the village accounts which is less in extent "than the minimum for survey numbers fixed under Section 98 in relation to such land shall, "unless the Survey Commissioner otherwise directs be separately measured, classified and "assessed and defined by boundary marks and the Survey Commissioner may, at any time, either "by general order or in any particular case or class of cases, direct that such operations shall "not be proceeded with unless and until an application accompanied with pre-payment of all the "costs of such operations or such portions thereof as the Survey Commissioner may direct, has "been presented by the parties interested. Recognized shares of survey numbers shall be called "'subordinate survey numbers,' but shall be regarded for all purposes as recognized shares "of survey numbers."

* * * * * * * *

I wish to point out the immense difference which exists in the practice, as regards subdivision of survey numbers, in Bombay and in Mysore. In Bombay, to entitle land to subdivision it must have been separately recognized in the village accounts; in Mysore the subdivision allowed is practically unlimited. In Bombay the subdivided portion must be separately measured, classified and assessed; in Mysore, there is no such provision, the land being simply measured and that too by very doubtful agency. In Bombay, a subdivision, if under the minimum, becomes a "subordinate survey number" and has no higher status than a "recognized share" while in Mysore a subdivision however small, [see Mysore Rule XXVII (8)] is to be regarded in every respect as a survey number. Thus we have two Provinces settled on precisely the same system and whose Revenue Codes are almost indentical, and yet, when it comes to a question of Rules, there is a disparity in the reading of the law and in practice which is simply enormous and renders it impossible that in both Provinces the right procedure has been adopted.

5. The division of the village lands into survey numbers under the Bombay system of survey and settlement, which is also that of Mysore, has been, from the first, whether in the original or revision surveys, professedly and authoritatively based upon the necessity of, and in the interests of, good revenue administration. Good revenue management being thus the main object, the convenience of cultivators, although consulted as far as possible by having

survey numbers of size suitable to small means, was necessarily made subservient to it. The boundaries by property, as it were, ever shifting, and never the same on two given dates a year apart, were subordinated to the necessity of revenue administration.

6. There can be no possible doubt that Bombay Act 1 of 1865, introduced into the Province of Mysore, as well as the Mysore Land Revenue Code, of 1888, contemplated a minimum below which Government would not consent to demarcate the land into survey numbers. Such legislation was entirely in accordance with, and was intended to support and ratify what had already been done by the survey and settlement, of which a leading and essential feature has ever been the refusal to recognize holdings so small as to render administration inconvenient and troublesome if not impossible. I submit, with all deference, that the adoption of such a Rule as Mysore Rule XXVII under which there is practically no limit to subdivision of even the most minute holdings which moreover are to be "treated in all respects as separate fields," is tantamount to a suggestion that the system of survey and settlement both in Bombay and Mysore has been wrong. To adopt in Mysore a practice which has been condemned in Bombay both in its survey, its Code and in its Rules, and is moreover opposed to the Mysore Land Revenue Code itself, cannot fail to result in confusion and must prove injurious to the survey and settlement carried out at such great expense and with such good results. It is the case that much confusion has already occurred during the three years the Rules under the Mysore Land Revenue Code have been in force.

7. The subdivision of holdings for purposes of *cultivation* will go on for ever and no wise Government would attempt, even could the means be found, to check it by legislation but this is surely no reason why Government should not restrict subdivision for the purposes of *revenue* management.

8. The question which I am now discussing is ackowledged to be as difficult as it is important so that, in Bombay, Rule 55, which relates to subdivision of land, did not reach its present shape, as quoted by me at para 4 until the opinions of the ablest Officers of that Government had been obtained and until the Rule in question had, consequently, gone through several amendments.

9. Having written thus much against the extreme and unprecedented subdivision permissible under Mysore Rule XXVII I feel bound to make some definite proposals for amending the Rule in question. I propose that Rule XXVII should read as follows :—

XXVII. 1. Any occupancy separately recognized in the village accounts if not less than the minimum field relative to such land under Section 109 shall, on the application of the parties interested, be separately measured, classified and assessed and defined by boundary marks and shall become a separate survey number.

2. Any occupancy separately recognized in the village accounts which is less than the minimum field, relative to such land under section 109 may, on the application of the parties interested, be separately measured, classified and assessed and defined by boundary marks and shall be called a "subordinate survey number" but shall be regarded for all purposes as a "recognized share" of a survey number.

3. On written application being made for this purpose to the Deputy Commissioner the names of the co-occupants of the registered occupant of any survey number "subordinate survey number" or "recognized share" of a survey number, and the share in fractional parts of a rupee of each such co-occupant may, should the Survey Superintendent not otherwise direct, be entered in the records along with the name and share of the registered occupants. Provided that no such entry shall :—

(1) Affect the liability of the occupants to Government or amongst themselves for the land revenue of the "survey number," "subordinate survey number," or "recognized share" of a survey number;

or

(2) be deemed to constitute the share to which it relates a recognized share of the survey number.

4. The minima under Section 109 shall be for—

Dry crop	. .	. .	...	. . 2 acres.
Wet	. .	...	...	. . $\frac{1}{2}$ an acre.
Garden	...	. .	.	... $\frac{1}{4}$ of an acre.

10. The above proposed Rule is slightly altered from the corresponding Bombay Rule but the spirit is the same. If some improved method of meeting the requirements of clause 3 of the Rule now proposed can be hit upon so much the better, but the proviso to that clause should stand. It might rightly be argued that the minima under Section 109 should not be the same for all districts but Government is, I am aware, disposed to allow as much subdivision as can reasonably be granted and therefore one scale for the whole Province will, I think, suffice.

11. Section 124 gives full power to the Survey Officer to subdivide survey numbers, subject to the provisions of Section 109 and Section 125, Section 109 notwithstanding, gives the same Officer sufficient power to subdivide as necessity arises. It is unnecessary therefore to insert anything in the Rules regarding subdivisions for the purposes of darkhast resignation, &c. All such applications can be dealt with under Section 124 and will receive every consideration.

12. If Rule XXVII, as proposed be me, be adopted, clauses 4 and 5 of Rule XXVI may go, as Section 71 fully provides for cases whether there are more occupants than one.

13. I would also recommend that provision be made in Rule XVII, see also Rule XX (16) for the assessment under Section 50 being fixed by the survey so long as that Department is in the Province ; also in Rule XIX (2) for reference being made in *all* cases, whether doubtful or not, to the Superintendent of Survey, of fixing water-rate.

14. This letter has been prompted by a desire to impress upon Government the danger of adopting a practice so utterly at variance with, and going so very far beyond, what has been deemed safe in Bombay where the survey and settlement is precisely the same as that carried out in Mysore. It so happens moreover that perhaps no point in the Land Revenue Code was, in Bombay, allowed such ample discussion or attracted so much attention as that involved in the reading of Section 98 (Mysore Section 109). Apart, however, from the legal aspect of the question I can only lay before Government my opinion based upon 30 years' experience in this Province, that the extreme subdivision allowed under Rule XXVII will undoubtedly impair the value of the survey and hamper the administration of the survey settlements.

15. I may mention in conclusion that I am taking steps towards ascertaining what subdivisions, under Rule XXVII, have been carried out up to date. Should Government so desire these subdivisions can be made into separate survey numbers or into subordinate survey numbers as they are above or below the minima fixed under Section 109. What I so much desire to see is some finality to the operation of Rule XXVII. The measurers now distributed over the various taluks are, although the subdivision under the rule in question was never intended to be carried out by them, employed upon every possible occasion upon that work to the sacrifice and detriment of their legitimate survey work.

(4) Letter No. 608—506, dated 29th December 1893, from the Deputy Commissioner, Shimoga District.

In forwarding for information and kind return when no longer required, the vernacular correspondence ending with the Sagar Sub-division Officer's Yadi No. 421, dated 1st May last, I have the honor to state that the Survey Superintendent states in his Yadi No. 1237, dated 1st April last that the duty of sub-dividing survey fields in accordance with the Land Revenue Rules should not be entrusted to a Survey Mojanidar ; that it is not possible for the taluk officials to do the work, as the survey numbers in the Malnad taluks are generally of a mixed nature consisting of garden, wet and dry lands, and further that any subdivision of such fields will be detrimental to Government revenue, and that in his opinion they should not be subdivided at all.

2. The Survey Superintendent has, however, no objection to deputing measurers in addition to their legitimate work to subdivide survey numbers, other than those of a mixed nature, whose subdivision has to be effected under the Land Revenue Rules.

3. I therefore request that you will be so good as to obtain the orders of Government, as to whether the subdivision of survey fields of a mixed nature should or should not be effected, and if it should be, what agency should be employed to do the work.

4. I beg to add that no distinction is made in Section XXVII of the Land Revenue Rules as to the nature of the lands to be subdivided.

(5) Proceedings of Government No. 10279—R. F. 318-92, dated 3rd January 1894.

READ—

Letter from the Superintendent of Revenue Survey, dated 14th November 1893. No. 322.
No. 10279—R. F. 318-92, DATED CAMP SAKLESPUR, 3RD JANUARY 1894.

ORDER THEREON—Before passing orders on the letter read above, the Government wish to know the specific grounds on which the Superintendent of Revenue Survey considers that Rule XXVII as it now stands "cannot fail to result in confusion and must prove injurious to the survey and settlement carried out at such great expense and with such good results," as well as to have some definite information as to the nature of confusion and injury that are likely to result. Printed copies of a note, dated 29th October 1893 on the subject of subdivision of survey fields, by the Honorable Chentsal Rao, will be forwarded to the Superintendent of Revenue Survey for information.

2. It is true that the Mysore Land Revenue Code (Section 109) did contemplate a minimum below which the Government might not consent to demarcate the land into survey numbers but it also at the same time contemplated the possibility of Government passing special or general orders to the contrary : for Section 109, after stating that no survey number shall be made of a less extent than a minimum to be fixed by Government, goes on to say that this rule "shall not apply to survey numbers which have already been made of less extent than the minimum so fixed, or which may be so made under the authority of Government given either generally or in any particular instance in this behalf." :—

3. Whatever may be the final decision in regard to the minimum area of a subdivided number, it is necessary that some definite orders should be issued in regard to the nature of the boundary marks of a subdivided number, and Colonel Grant is requested to be so good as to submit his reply to Government Order, dated 29th September 1893, No. 6346-54—318-92, as soon as possible.

(Enclosure to the above).

NOTE.

Section 109 of the Land Revenue Code gives Government the power of fixing or not fixing a minimum area below which no subdivisions of Raiyatwari lands should be allowed, and the point which now requires consideration is whether the sub-divisions made by the holders of Raiyatwari lands in the course of inheritance or in consequence of transfers should be recognized by Government without any limit as to area, or it should lay down any minimum below which subdivision should not be recognized.

2. The question is an important one, and its importance can only be realized when we know the classes of cases in which the recognition of subdivisions is claimed and the manner in which survey numbers were formed.

3. In Madras, the holdings of Raiyats were divided into one or more survey numbers according to convenience and the classes of soils they contained, and the holdings of two different individuals were never mixed up in one survey number. If ever they were mixed up, each man's holding was formed into a separate sub-number, and each such sub-number was for all practical purposes treated as a separate number. But in Mysore, small holdings of different individuals were clubbed together and formed into one survey number. For instance, if A, B, C, D, had each one acre of land, all the 4 acres were treated as one survey number, and one of the holders was called the registered holder, and the others are called "recognised sharers." Each is allowed to pay his own assessment ; but if one of them relinquishes his share, the others are bound to take it up, or give up their own shares, so that the whole number may be available for a third party. In such cases, the so-called recognised sharers wish to have their lands divided into subnumbers to avoid their liability to take up the land of others or to give up their own against their will. This desire is natural and reasonable, and I do not see how in their case we can say that we will not sub-divide and remove the liability thrown upon them by the Survey Department simply on the ground that the area they hold is less than the minimum fixed by Government

4. Another class of cases in which the recognition of subdivisions is sought is that which arises out of the law of inheritance. When a registered occupant dies leaving a number of sons and other heirs, Section 68 of the Land Revenue Code says that the Deputy Commissioner shall cause the name of the eldest son or the principal of his heirs to be registered in his stead. It does not make any provision for the registry of the names of all the heirs though they might have divided the lands and enjoyed them separately. Section 67 however says that if any one establishes his title in a Civil Court, and produces a copy of the decree, the necessary change shall be made in the registers. The effect of this is, that if a person holding 6 acres dies, leaving 5 sons and they divide the land into equal shares each enjoying his share separately, only one man will be recognised as the registered holder and he alone held responsible for the assessment If he fails to pay the assessment, the others are not entitled even to a notice, and the whole land is sold for arrears. This being hard, the unrecognised sharers naturally wish to have their lands divided into sub-numbers so that they may not be answerable for any default on the part of the registered holder. I do not see how we can justly refuse their prayer in such cases on the mere ground that the area occupied by each is less than the minimum prescribed or how we can drive them to a Court to establish their title, even when it is not disputed, to enable them to secure registry in their names. It is indeed a separate question which I shall discuss further on whether subdivision of land beyond a certain minimum should not, on economic grounds, be made *illegal*. It is enough to mention here that it is not the law at present.

5. The third class of cases in which sub-divisions are claimed are those of transfers by sale, gift or otherwise. In these cases, Section 71 of the Revenue Code says that the relinquishment in favor of a specified person may be accepted by the Deputy Commissioner provided such relinquishment is for the entire survey number or for the entire occupancy. Where the transfer is only for a portion of survey number, the Deputy Commissioner cannot accept the transfer unless the number has been subdivided and the subdivision recognised by Government. In such cases the recognition of sub-divisions of a survey number is reasonably claimed. Although the Deputy Commissioners are not authorized to accept transfers of portions of a survey number, the transfer does not become void simply because it relates to a portion of a survey number and there is nothing to prevent the Civil Courts from recognising such transfers. Then, the simple effect of our refusing to recognise transfers of portions of a survey number will be that we will be creating a class of land-holders who are not responsible for the payment of the Land revenue and yet whose lands will be liable to be sold for arrears of Revenue if the registered holder fails to pay the assessment on the portion retained by him. This creation of irresponsible land-holders is neither desirable in the interests of Government nor in those of the registered holders, for, the latter also will be held responsible for the revenue of the lands not in their possession.

If then, we cannot refuse subdivisions of numbers on grounds of justice, we have to consider whether it is desirable, on economic grounds, to refuse them. This is a matter on which some of the best intellects are divided. In some European countries, peasant property is not divisible beyond a certain minimum area. Mr. Henry W. Wolf in an article on peasant properties contributed to the "Contemporary Review" for May 1891 says "Under the modern Saxon Law—similar laws exist in other countries—a peasant property is not divisible beyond a certain minimum area. It is a foolish Regulation as the result has shown. For, small plots and rolling, *i*, *e*, detachable portions, fetch throughout the highest prices Protection after its wont has injured the interest which it deserved to benefit." A great deal can of course be said on both sides of the question, but I shall content myself by observing that whether it is small holdings or large holdings that are best suited for promoting the agricultural prosperity of a country, holdings are not simple things within the power of Government to arrange, but are, like everything else, matters of growth. We may refuse to recognise small holdings for revenue purposes, but we cannot prevent the existence of small holdings so long as the country is poor and the Hindu Law is what it is.

6. If we come to the conclusion that we are bound to subdivide survey numbers, the next question we have to decide is, how should the assessment be subdivided. In Madras, the subdivision of assessment is a more arithmetical process. If a number consists of 2 acres, assessed at Rs. 2, and ½ an acre has been alienated, its assessment in proportion to the area is fixed at ½ Re. This they are able to do, because each survey number or sub-number contains but one class of land capable of bearing one rate of assessment. But it is not so in Mysore, where the assessment is fixed on somewhat a different plan. In Mysore each survey number is divided into a number of equal compartments, and after ascertaining the class of soil in each compartment, the defects in each compartment such as (1) admixture of nodules of lime stone, (2) mixture of sand, (3) sloping surface, (4) want of cohesion, are noted down, and each of the defects is held to lower the soil one class. Likewise in the case of wet and garden lands, the quality of irrigation is taken into consideration and its value added to the assessment of the soils. After thus ascertaining the class of soil in each compartment, the assessment fixed for each class on general considerations is charged and the aggregate of the totals of the assessment of the several compartments forms the total assessment of the survey number Thus, though the aggregate area and the assessment of one survey number may be for instance 10 acres and Rs. 10 for dry, 5 acres and Rs. 20 for wet, there may be compartments in them which are capable of bearing a higher or lower assessment than Re. 1 per acre for dry and Rs. 4 per acre for wet. Strictly, therefore, when a subdivision of assessment is claimed, we have to ascertain in what compartment the subdivided portion of the land lies and fix the assessment thereon according to the class of that compartment. There can be no difficulty in this being done if the records of the Survey Department, which originally divided each survey number into several compartments are preserved and available for reference, but, if they are not, the alternatives left will be as follows:—

First.—we must either keep the Settlement Department as a permanent Department and let them go on dividing the assessment as applications are received, or

Secondly.—we must instruct our Revenue Officers how to classify the lands and apportion the assessment with reference to soils, or

Thirdly.—we must authorize the Deputy Commissioners to apportion the assessment of each survey number among its subdivisions with reference to the area only under each description of land, *i. e.*, dry, wet and garden, ignoring the minor differences in the several compartments of the same number excepting in cases where the differences in the several compartments are so wide as to render an average assessment utterly inequitable, in which case an equitable assessment may be fixed with the aid of survey records or of a trained classer.

We have chosen the last alternative for the following reasons:—

First.—When people know that subdivisions of one and the same number will be assessed at the average rate of that number, they will take care to make each subdivision contain good and bad lands so as to equalise the assessment.

Secondly.—The process is simple and intelligible to all concerned.

Thirdly.—Any inequality in the assessment of the subdivided portions does not affect the interests of Government, since the total assessment of the whole survey number remains the same.

Fourthly.—Exact accuracy is immaterial because under a system of moderate assessment, the greatest difference in the assessment would not be such as to render the land an unprofitable holding or to prevent its occupation. At the utmost, it would, as observed by Madras Government, render the land only less profitable than the other land, which inequality is adjusted by pieces.

Fifthly.—The expense of maintaining a separate Department for the purpose of apportioning assessments is not at all commensurate with the advantage gained.

7. With a view of ascertaining how far the method of adopting the average assessment will differ from the results of valuing, with reference to the soils in each compartment, I have examined the detailed accounts of three villages, one in Malnad, one in semi-Malnad, and the other in the Maidan taluks and I find (see statements appended) that the differences between the minimum, the maximum, and average assessments of the several compartments in each number do not vary so widely as to prohibit the adoption of the average rate as a rule, exceptions being dealt with specially.

8. If, however, it is deemed expedient to adopt the more elaborate process of determining the assessment with reference to the value of each compartment of a survey number, the best plan would be to ask the Survey Department not only to assess all the existing subdivisions, but also to note on the map, the class to which each compartment in a survey sub-number belongs, so that, the fixing of assessment on any further subdivision of it may be a mere arithmetical process. In fact such a plan would be to make our method of fixing survey sub-numbers, the same as that in Madras. I must, however, say that the idea of applying a scientific method of valuation in the case of each subdivision, or of fixing a minimum area below which transfers should be declared void or of enforcing a joint responsibility, does not at all commend itself to me. The first process is needlessly expensive, and in regard to the second, it is very difficult to fix a reasonable minimum with reference to the requirements of the several classes of lands, *e. g.*, lands in the vicinity of towns, and those employed in raising market garden produce, which are highly productive and held in small plots. As regards the joint responsibility system, apart from the inconvenience arising out of our having to deal with a number of men in regard to one property, it is hardly desirable to enforce a joint responsibility system, when people themselves wish to divide and be independent.

9. So far as the measuring operations are concerned, for the purposes of subdivision, I apprehend no difficulty whatever. Our Shanbhogs and Shekdars can be easily taught how to do it in a month, and in several British Provinces, the work is carried on by the village officials. I append an excellent pamphlet written on the subject by Mr. Cordozo, the Superintendent of Revenue Survey in Madras.

10. There is one point which I have not noticed in the above remarks. It is sometimes urged that the minimum area we have prescribed for absolute relinquishments would be nullified by admitting transfers without limit. For instance, if A wishes to give up one acre of his land which is less than the minimum fixed for relinquishments, he may gain his object by transferring it to another and getting it subdivided when it could be relinquished. But this is such a roundabout process that I am sure our raiyats will not resort to it, and so far as my experience goes, lands are never relinquished on account of the heaviness of assessment we have fixed. Absolute relinquishments are entirely due to other causes, such as famines, want of irrigation facilities, and the like. No land that is fit for cultivation will be given up, and if it is not fit, it is not right that any one should be compelled to hold it. Minute subdivisions are allowed in Madras without any limit as to area, and no inconvenience has arisen thereby. Far from apprehending any inconvenience, I am inclined to think that freedom to transfer without a minimum limit is the surest way of preventing minute subdivisions of properties as persons who have inherited small bits will always be glad to get rid of them by transfers to others, whereas if no such transfers are allowed, they might be obliged to keep them in spite of all other disadvantages.

(6) Letter No. 434, dated 17th January 1894, from the Superintendent of Revenue Survey in Mysore.

I have the honor to acknowledge receipt of the Proceedings of the Government of Mysore, Order No. 10279—R. F. 318-92, dated 14th November 1893, on the subject of subdivision of survey numbers under Rule XXVII of the Rules under the Mysore Land Revenue Code.

2. I will reply very shortly on the general question involved, but as to para 2 of the Proceedings above quoted, I am requested to reply at once to Government Order dated 29th September 1893. I beg to state my views as to the character of the distinctive demarcation I would suggest for subdivisions of survey numbers under Rule XXVII which I observe requires only those subdivisions, which are above the prescribed minimum to be demarcated.

3. As the required demarcation is to be distinctive, *i. e.*, different from the ordinary survey boundary marks I can only suggest that a continuous earthen ridge one foot in height should be thrown up to denote subdivision boundaries or in cases where it would be more convenient, a trench about 1 foot deep with the excavated earth thrown up on the

side. This would not be very expensive and would be better than small stones which, under the lax supervision which I regret to say exists in the maintenace of boundary marks, are very frequently removed The suggested demarcation which would, of course, not be required where the survey number boundary is coincident with the boundary of the original survey number, could not be mistaken for the ordinary survey boundary marks, would be within the ready reach and means of the raiyats, and would take up very little room where the earthen ridge has to be made in wet land Care should be taken to make it in such a manner as not to be mistaken for the ordinary "Badva" or rice embankment

4. As above stated, I shall submit a report very shortly on the general subject of subdivisions of survey numbers but pending the final decision of Government as to the extent to which subdivision is to be allowed the demarcation I have suggested seems to me the only kind that will suit sub-numbers.

(7) Letter No. 498, dated 9th February 1894, from the Superintendent of Revenue Survey in Mysore.

I have the honor to acknowledge the receipt of Proceedings of the Government of Mysore, Order No. 10279—R F. 318-92, dated 3rd January 1894, in which I am requested to state specifically the grounds upon which I consider that the operation of Rule XXVII of the Rules under the Mysore Land Revenue Code, as it now stands, is likely to lead to confusion and injury to the Survey Settlement

2 I trust I may be pardoned if I express an opinion that the proviso to Section 109 of the Mysore Land Revenue Code quoted at para 2 of the above Proceedings can scarcely have been intended to apply to any but exceptional cases It was intended to deal, where necessary, by a general order with a set, or particular class of exceptional cases, as well as specifically with individual cases, but it cannot have contemplated the almost complete abrogation of Section 109 to which it is a proviso Moreover it will be observed that the proviso in question alludes to survey numbers, not to subdivisions of survey numbers

3. As requested I will state the grounds upon which I anticipate confusion, and injury to the survey settlement I will place my objections under certain heads in order of importance, and deal briefly with each —

1 Disturbance of the survey assessment
2 Agency proposed to be employed in subdividing survey numbers.
3 General inconvenience and increase of work even if subdivisions of survey numbers be correctly executed

4. Regarding the first head, *viz*, the disturbance of the survey assessment by adopting the average assessment of the whole survey number and applying the same to the subdivided portions, I beg to make the following remarks. The Honorable Chentsal Row at paras 7 and 8 of his Note, dated 19th October 1893, states that the differences between the minimum, maximum and average assessments of the several compartments in the survey numbers of three villages the detailed accounts of which he examined do not vary so widely as to prohibit the adoption of the average rate as a rule, exceptions being dealt with specially He also states that the idea of applying a scientific method of valuation in the case of each subdivision does not commend itself to him I have not seen the statements appended to the Note but I may state I have myself personally classed in the field many survey numbers in which the assessment of the highest valued compartment was double, treble and even quadruple the assessment of the lowest classed compartment I will even go so far as to say that, under our minute system of classification, it would be quite exceptional to find the compartments of a survey number all uniform in value I happen to have lying on my table at this moment a list of survey numbers which have been subdivided by the Survey Department, owing to the railway passing through them, and the classification of the subdivided portions of which I have revised without any re-classification in the field, but simply by means of the classers' books I submit the statement in question for inspection and, it being original, for kind return In the column of remarks I have made some notes in red ink elucidating the difference in the rates, as a result of subdivision. After a perusal of these notes which I may state are not on selected cases but upon the first that came to my hand, I think it will be admitted that the application of the average rate of the whole number (see column 18 of the statement) to the subdivided portions would have been a very unjust proceeding both to Government and to the raiyat. Out of 44 cases I could only adopt the average rate of the number in seven cases and then only because one or other of the subdivided portions was very minute. In no case were the rates of the compartments uniform The Honorable Chentsal Row at para 6 of his Note surmises that if the records of the Survey (Classing) Department have bee

preserved, which I need scarcely say is the case, there can be no difficulty in apportioning the original assessment according to the new subdivisions. This is exactly what I have done in the statement now submitted, but I must remark that it is not always possible to do this, although in most instances it is. Whether however the re-classification is done from the existing records or in the field the operation must be left to those who are conversant with our system of classification it cannot possibly be done by those who have not been trained to the work.

5. I may here dispose of an argument which has been advanced that because in the Survey Department itself the average rate of the survey number is applied to "recognized shares" of the same number, therefore there can be no harm in applying the same principle to sub-numbers under the Land Revenue Code Rules. In the early stage of the survey in Mysore the Government of the day was anxious to have the work pushed on as rapidly as possible and clubbing of holdings into one survey number took place to an extent greater than I should now approve of, although of course these holdings were all separately recognized, at the time, in the old accounts and were for the most part very small. I have always regarded the application of the average rate of the whole survey number to the "recognized shares" as a very great flaw, although perhaps at the time, and under the circumstances, an unavoidable one. It would surely be a most retrograde measure to repeat instead of trying to remove what is wrong. The obvious course is to let "recognized shares" of survey numbers be made into separate survey numbers as freely as possible and separately classed and assessed as proposed in my letter No. 322 of 14th November 1893.

6. I think that re-classification cannot possibly be dispensed with whenever a survey number is, for any reason, subdivided. To take any other view would be tantamount to an admission that the minute classification, under the Bombay system, which is the very backbone and mainstay of the whole system, was really unnecessary. To say (see para 6 of the Honorable Chentsal Row's Note) that, because the rates are moderate, exact accuracy is immaterial, seems to me a very startling statement believing, as I do, that to this very minuteness of the classification is due the success which has attended the Bombay settlements, under which almost all the arable land, even to the poorest, has been brought under cultivation. Co-ercive measures are rare and little or no land is thrown on the hands of Government for want of bidders; a great contrast I am led to believe to the state of things which exists under other systems of settlement.

7. I will now take up the question of employing shanbhog agency in subdividing survey numbers. I am convinced that the idea of thus employing shanbhogs emanates from a want of consideration of, and allowance for, the absolutely different systems of survey and settlement followed in Mysore (the same of course as in Bombay) and Madras. In the latter Presidency there is first of all a Professional Survey, with its various branches, and there follows the Cadastral survey, parts of which latter the karnams, I am informed, have been successfully employed in filling in but not without strong professional check and support. On this point I beg to refer to my letter No. 396 of 18th December 1893. The professional element is still very strong in Madras there being still some unsurveyed districts, and some which require re-survey and re-demarcation. Now in Mysore, there is no professional survey, of the same kind as that of Madras, to fall back upon, the dividing up of the village lands into survey numbers being the sole process and therefore requiring extreme accuracy. It is however in the formation of the survey number in Madras, as compared with Mysore, that the great difference exists. The survey number in Madras, it is admitted (see para 2 of the Honorable Chentsal Row's Note) is formed with reference to the classes of soils it contains and it is even said that the holdings of two different individuals were never mixed up in one survey number. Consequently (see para 6 of same Note) the subdivision of the assessment, when a survey number is subdivided, is a mere arithmetical process. Under such circumstances, the subdividing of survey numbers is comparatively easy. The survey numbers in Mysore, which it is hoped the shanbogs may be taught to subdivide after one month's training, are absolutely different; inasmuch as they contain not only several descriptions of cultivation, dry, wet and garden, but each description of cultivation again contains different classes of soil. This mode of dividing the lands into survey numbers was eminently satisfactory to the raiyat, as it saved him much demarcation and it perfectly suited, indeed was designed to suit, the mode of classification which was to follow and which, as is well known, is quite different under the Bombay system, from any system of classification followed in any other part of India. In order to subdivide survey numbers in Mysore the operator would require a great deal more knowledge than the mastering of Mr. Cordozo's simple Manual would give him; he would require a considerable knowledge of Departmental Measuring Rules and of the requirements of the Classing branch.

8. I find, in practice, that a full season of eight months in the field, is necessary to qualify even a carefully selected learner before he can be trusted to measure inexpediently; and even then, his work, for several years, is subjected to test more severe than the normal test applied to

the work of more experienced men. Under such circumstances it is impossible for me to believe that we could train our shanbhogs in one month to do the exceptionally difficult work of subdividing survey numbers in Mysore. Shanbhogs represent as good a class as any other to select from, indeed a good many of our trained men were once shanbhogs, but they cannot learn in one month what other men can only learn in eight months; they must go through the regular course of instruction. The general drift of the Honorable Chentsal Row's Note appears to me to be to get rid of the Professional branch altogether and trust to the shanbhogs and shekdars doing all that is necessary. There is no precedent for such a dangerous experiment even in Madras, where although shanbhogs are employed on comparatively easy work, the professional element is still very strong. The peculiarities of our system of measurement and classification absolutely forbid the withdrawal of professional check and support. Had such a thing been possible it would surely have been done in Bombay long ago, but it is there regarded as impossible.

9. I will next suppose, for the sake of argument, that the subdivision of survey numbers under Rule XXVII can be carried out successfully by qualified agency. I believe the subdivision under the Rule in question to be opposed to the intention of the survey settlement and to the Code itself but, putting that question entirely aside, the operation *per se* must cause much confusion and inconvenience. If the subdivisions are demarcated which [see Rule XXVII (4)] would only be in the case of those above the minimum and the boundary marks at all resembled those used in the regular survey there must, as a matter of course, be difficulty of identification and confusion at the time of boundary mark inspection, inasmuch as subdivisions are not shown on the village maps. Already some of our village maps have been injured by these subdivisions being shown on them without any authority. If the subdivisions are *not* demarcated, which, [see Rule XXVII (4)] will be in the case of all those under the minima and if each subdivision is to be treated in "all respects as a separate field," as laid down in Rule XXVII (8), then I am quite unable to see what is to prevent sub-numbers, if unoccupied, being enjoyed or encroached on at pleasure. Even with the help of the occupants of occupied sub-numbers in the same original survey number, the shanbhogs would be puzzled to identify the unoccupied sub-numbers. Of course once land is subdivided it can be relinquished under the present Rules.

10. I will even take the case of an original survey number divided into subnumbers, *not* below the minima and therefore demarcated. Supposing an original survey number of eight acres subdivided into four sub-numbers of two acres each of which three are occupied and one unoccupied. In any particular year when one or more of the occupied sub-numbers are allowed to lie fallow, not an uncommon occurrence, what is the difference between such fallow lands and the unoccupied sub-numbers? Only the purchasers of the annual grazing sold in Mysore in the lump would be interested in the matter and they would probably not know which sub-numbers were occupied and which unoccupied. Any number of instances suggest themselves in which confusion and loss to Government may occur if subdivisions, different from the only subdivisions allowed by or even mentioned in the Code, *viz.*, the survey unit and its recognized share, are allowed, quite unprotected by Section 110 and not mapped or separately assessed and, in the majority of the cases, undemarcated.

11. It appears to me that these subdivisions, as contemplated under Rule XXVII, can never have the status of a survey number proper, so to speak, and their formation defeats the intention of the Code, notably of Section 110 the object of which, as of the Code throughout, is to preserve the integrity of the survey number and prevent its being partly occupied and partly waste. Nowhere does the Code permit the formation of anything but a survey number; indeed it only recognizes survey numbers and "recognized shares" of survey numbers, unless perhaps in Section 124 which was however inserted specially for subdivision of survey numbers at time of revision of survey. If survey numbers be separately measured, demarcated and assessed which I submit is the only wise and legal course, then the objections to subdividing, under such formal measurement, would be narrowed to a great extent. Their formation would be legal and we should only have to consider the questions of cost, the limit of area under Section 109, the great increase in account-keeping and in maintaining boundary marks which in very small holdings would take up much room; important matters when we know that, even as matters now stand, the shanbhogs cannot or will not do the work asked of them.

12. It goes without saying that the formation and recognition in the village accounts, of the unlimited subdivision permitted by Rule XXVII must, apart from all the other objections I have shown, greatly increase the work of the shanbhogs and patels. The Khetwar Patrik which in Bombay need sometimes be re-written only once during the whole currency of the settlement, and in Mysore only about once in ten years, will have to be re-written or altered annually as well as other village accounts. The Khetwar Patrik is rightly supposed to be based upon the survey settlement. Papers prepared at the time of original or revision settlement but, under the circumstances I have described, it will soon cease to tally with the latter. The Khetwar Patrik will, in fact, represent an almost fresh departure and will record a never-ending settlement of which the Survey Department would have no knowledge and for which it would be in no way

responsible. The Akarbands, what with the sub-numbers not being shown in them, and with the great risk of assessments under Rule XVII and XIX not being reported to the Survey Department, would soon cease to be of much use for reference or minute check.

13. I have just received from the Deputy Commissioner of the Bangalore district returns of sub-numbers under Rule XXVII carried out, or in process of being carried out up to date. I may classify them as below :—

Reason for subdivisions.		Number of subdivisions.
1	Sales	1,030
2	Convenience of co-sharers	1,250
3	Separation of dry, wet and garden	110
4	Resignations	371
5	Waste broken up (for cultivation it is presumed).	992
6	By wish of applicants	491
		4,273

The areas of the above are as follow—

Dry—		
Within 20 guntas		23
„ 1 acre		111
„ 1½ acres		72
„ 2 „		233
Over 2 „		2,591
		3,030
Wet and garden—		
Within 10 guntas		49
„ 20 „		111
„ 1 acre		301
„ 1½ acres		302
„ 2 „		162
Over 2 „		328
		1,243
	Add Dry	3,030
	Total	4,273

Almost all the above sub-numbers have been made by Survey measurers now working under the Deputy Commissioners and a few numbers have been tested by the surveyor and found correct, but the Deputy Commissioner informs me that the very large margin or error of ten per cent has been allowed. I have of course had no time to analyse these subdivisions, from the classification records, to see what the loss to Government has been by the disturbance of the assessment, but I shall be very much astonished if I do not find considerable loss has occurred, chiefly under heads 4 and 6. I give the figures now in order to convey some idea of the extent to which subdivision is being carried out and to point out that, so far as the Survey records are concerned, no information whatever exists regarding these new subdivisions nor are they shown on our village maps. Returns from other districts have still to come. Under head 5, waste broken up for cultivation, no gain has occurred which would not have been much more satisfactorily brought to account by survey numbers being formally made by the regular survey.

14. The Bombay and Mysore Land Revenue Codes were drawn up with the full intention and desire of, as far as possible, recognizing landholders and of consulting the convenience of cultivators, but any action in that direction was limited by the necessity of ensuring good Revenue administration. Consequently, the condition of a survey number was deliberately and clearly laid down in Section 98 (Bombay) and Section 109 (Mysore) that it shall not be less than a fixed minimum The provisions of the Code itself in Mysore and of Rule XXVII under it are as wide apart as they can well be, the effect of the latter being to practically cancel the former. So called sub-numbers are formed under Rule XXVII possessing none of the attributes of a survey number, as defined in the Code, being neither mapped nor assessed and not even subject to the wise provision of Section 110, and yet these sub-numbers are given the full status of survey numbers. The integrity of the original or existing survey number under such circumstances, cannot possibly be maintained.

15. I am far from being out of sympathy with the Honorable Chentsal Row in a great deal that he urges in his Note but I am convinced that it will never answer to abandon the provisions of the Code. The immense amount of technicality involved in the formation of one survey number and still more in its classification has not been understood, otherwise I am sure the Rules of the Madras Presidency could never have been recommended for a settlement carried out on an absolutely different basis. All that I have advanced in this letter is fully borne out and guaranteed by the action of the Bombay Government in framing Rules under the Land Revenue Code of 1879. Under the Bombay Rules no subdivision of existing survey numbers is permitted unless formally measured, demarcated, classed and assessed. The subdivisions become survey numbers, if over the minimum, and "subordinate survey numbers," if under the minimum, but in the latter case are regarded as "recognized shares of survey numbers" subject to Section 99 (Mysore Section 110). More than this, the land to be sub-divided must have been separately recognized in the village accounts. "Survey numbers" as well as "subordinate survey numbers" are shown on the map and brought on to the Akarband.

16. In Bombay, the Deputy Inspector of the Collectorate and the Circle Inspectors, one or two to each taluk as necessary are, and must all be, trained measurers and they alone are employed in division of numbers under decrees of Court, or for other legitimate reason; in cases of compensation for land taken up for Railway or Public Works purposes and in the correction of survey papers and maps consequent on such and similar alterations. I am given to understand that, in completely surveyed parts of Bombay, in order to ensure the correct and trustworthy performance of the very important work I have alluded to, some such arrangement as the following obtains. There is a Division Inspector (for instance, Mr. Lushington, late Assistant Superintendent, Revenue Survey, supervises, on Rs. 800 a month, the districts of Dharwar, Belgaum, Bijapur, North Canara, Ratnagiri and Kolaba, all regarded as one division for the purpose), a Deputy Inspector for each district and one Taluk Circle Inspector, or two if the work is heavy or exceptional.

17. I would very earnestly urge upon the Mysore Government the adoption of some similar plan, the details of which I shall be glad to submit if required. One officer as Division Inspector or say Director of Land Records Branch, could supervise the whole of this Province and I would strongly recommend Mr. J. P. Barker who has been so long in the Survey here and possesses both classing and measuring experience. His knowledge of classing would enable him to adjust the assessment of subdivided fields in most cases from the classification records without further work in the field. Under him would be a Deputy Inspector for each district and one or more Circle Inspectors for each taluk. We have just about sufficient material left, in the measurers now distributed over the various taluks to supply the above appointments.

18. What I propose is really not very unlike the present existing arrangements under which there is a Surveyor for each district and a measurer to each taluk. The gain in efficiency and in securing uniformity of procedure by having a distinct department would be enormous. At present the same practice in the management and utilization of the measurers cannot be found in any two districts and the waste of time and want of organization is very serious. I do not blame the Deputy Commissioners for this, but the system. With a distinct department to be called say the Land Record Maintenance Department uniformity of practice and economy of time would be secured and the cost would not be so very much greater than at present. There would, as new charges, be the pay of the Director and perhaps somewhat higher salary than the present Surveyors draw would be required for Deputy Inspectors, but not all at once.

19. In connection with the adoption of the plan I advocate all sub-numbers hitherto made under Land Revenue Rule XXVII might be regarded as coming under the proviso to Section 109 and be now formally made into regular survey numbers by separate demarcation and assessment and brought on to the maps and akarbands but, for the future, the Rule in question should be amended so as to be consistent with the Code. Applications for subdivision could then be entertained and given effect to by the Land Record Department under such rules as may be considered fair. I would propose the amendment as set forth in my letter No. 322 of the 14th November 1893, para 9.

20. The Director of the proposed Department would be able, by means of his Deputy Inspectors and Circle Inspectors, to train such likely local candidates as might offer, so that vacancies could be filled up as they occur. He could of course give his attention to the examination of village accounts and to the maintenance of boundary marks but his main work would be the maintenance of records. As the Survey Head-Quarter Office would be made in every way accessible to him and as the formation of the proposed Department would absorb almost all the available Survey measurers, the Director should be required to take all reasonable orders from me on matters entirely connected with the survey. I believe I am

proposing a plan which, on the score of cost and economy, will compare favorably either with Bombay or Madras. In the latter Presidency, I gather from the report on the operations of the Department of Land Revenue and Agriculture for 1891-92, there are no less than 691 Revenue Inspectors although I am not clear as to the whole composition of what is there described as the Revenue Inspector Staff.

21. I regret being obliged to write at such great length and above all having to give expression to opinions adverse to the apparent wishes of Government. I cannot however conscientiously recommend the employment of shanbhogs on the measurement and division of survey numbers, which, as I have already pointed out, are dependent on technicalities which apparently do not exist in survey numbers as formed in Madras. I cannot recommend the continuance of subdivision Rules which I believe to be opposed to the provisions of the Code and which I think I have fairly shown, will injuriously affect the working of our settlements.

22. I very earnestly recommend the early amendment of Rule XXVII and the formation of a distinct Record Maintenance Department on the lines I have sketched. Government may rest assured that the total withdrawal of the professional element is impossible in Mysore or anywhere else and the opportunity offers now, which may not be so open, or at any rate will be attended with much greater difficulties, later on. The establishment which I have recommended is not at all large when viewed in connection with the importance of the work to be done and the cost will in a great measure be made good by the spread of cultivation which I fully anticipate; indeed, at the present moment, the demand for fresh lands strikes me as unprecedented.

(8) Letter No. 65—61, dated 17th July 1897, from the Deputy Commissioner, Chitaldrug district.

I have the honor to state that all the taluks of this district are ripe for re-settlement as the term of the original guarantee has expired and as a preliminary to that re-settlement, the re-classification of rice and garden lands is being done by a classing establishment. The work of two taluks has been finished and by the end of the coming field season the whole work will have been completed.

2. I beg that advantage may well be taken of this re-settlement to bring the suvrey work also up to date and incorporate all corrections that have hitherto been made and that now require to be made in a new map that may be issued when the new rates are announced.

3. I find that the taluks having been surveyed before the issue of rules on the subject, the proper margin that should be allowed on the side of roads, has in a great many cases, not been allowed. New roads have been opened since and have to be demarcated. Where survey numbers have been broken up either for the purpose of their being taken up for cultivation or for purposes of relinquishment, it is advisable in the interest both of Government and of the raiyat that they should be demarcated and recorded as separate survey numbers, and the extensions of village sites which have become very numerous of late have also to be properly recorded.

4. It is not necessary that any new establishment should be entertained for this purpose. The services of measurers that have now been allotted to the taluks may be utilized for this work. But instead of allowing them to do the work without any method and without any effective check they should, I beg to suggest, be placed under the regular supervision of a Survey Officer and the work done once for all in a systematic manner. At present much of the time of the measurers is wasted in going from place to place and the supervision exercised over them is not and cannot possibly be as effective as that exercised by a Survey Officer under whom they may be placed.

(9) Letter No. 216, dated 17th September 1897, from the Superintendent of Revenue Survey in Mysore, expressing his opinion on the above suggestion of the Deputy Commissioner.

I have the honor to acknowledge receipt of your Memo No. 1527—R. 496, dated 5th August 1897, forwarding for my opinion copy of Chitaldrug Deputy Commissioner's letter No. 65—61 of the 17th July 1897.

2. The Deputy Commissioner in the above letter suggests that advantage should be taken of the re-classification of rice and garden lands now in progress in his district to bring survey work up to date and incorporate all corrections past and future in a new map.

3. The Deputy Commissioner's suggestion comes somewhat late in the day, considering that the water classification of two taluks has already been completed and, moreover, to admit of the incorporation of any corrections as part and parcel of the pending revision settlement, the measurement should have preceded the classification, which in two taluks at any rate, is now impossible.

4. When Government decided that no fresh measurement in the field should be undertaken in connection with the revision of assessment under Section 115 of the Land Revenue Code, I regarded any further action in that direction as at an end.

5. It appears to me that, as regards the suggestion now made by the Deputy Commissioner of Chitaldrug, information should be collected, in his district to begin with, as to the instances in which the village maps do not, from whatever cause, agree with the existing boundaries in the field. The list should show each survey number requiring alteration, with the reason. When this list has been prepared I can judge what establishment will be required and the work can be carried out in such manner as I find most advantageous. I will supply the Deputy Commissioner with instructions, in Kanarese, for guidance of shanbogs in preparing the required lists, for which an opportunity occurs during the ensuing inspection of lands for the preparation of Village Form No. 7.

6. I do not think that this work of correction and bringing up survey work generally up to date, can possibly be incorporated with the water classification now in progress, the result would be to hamper both operations. It can be taken up as current work and the akarbands and maps corrected from time to time.

7. As regards other districts than Chitaldrug the experience we shall now gain will enable us to extend operations to them also, and if these operations precede the water classification so much the better.

8. I thought it advisable to obtain the Deputy Superintendent's opinion on the matter under reference and I now submit copy of his letter No. 285 of the 25th ultimo. It will be seen that he shares my own opinion regarding the impossibility of incorporating correction work with the water classification now in progress.

No. 285, dated 25th August 1897, enclosure to the above.

With reference to your endorsement No 139, dated 7th instant, forwarding for my opinion letter No. 65—61 of the 17th ultimo, from the Deputy Commissioner of the Chitaldrug district, to the Secretary to Government, I have the honor to state that it is very necessary and desirable to incorporate in the village maps all the alterations that have been made in field since the original settlement, as it is most important that maps should be quite in accordance with fields.

2. I was under the impression that necessary corrections both in field and in maps have been made from time to time as alterations have been sanctioned, but from para 3 of Deputy Commissioner's letter it does not appear to have been done so.

3. The Deputy Commissioner proposes to have all the correction work done along with the revision of classification now in progress in his district. I do not think it possible to do so, as the work referred to by him will necessarily take a long time to finish.

4. Considering that the correction work in question is of a recurring nature it can be undertaken with advantage, as a current work, by the agency of measurers and Surveyors now employed in taluks and districts, under the supervision and guidance of a Survey Officer, as suggested by the Deputy Commissioner.

(10) Letter No. 183, dated 6th August 1897, from the Deputy Commissioner, Mysore district.

I have the honor to state that two persons named (Venkata and Mariya), residing at Sivanahalli in the Nelligere hobli of the Nagamangala taluk, applied for cultivation purposes, for 4 acres each out of Government waste Survey No. 7 in that village, measuring 23 acres, 15 guntas

and assessed at Rs. 15. The portions applied for were measured and made into separate numbers as noted in the margin and boundary marks were also erected. A Circular Order to erect such marks had been previously issued from this office to all Amildars to demarcate sub-divisions of assessed waste numbers as without proper demarcation it was not possible to prevent encroachments. Such encroachments came prominently to my notice during the last jamabandi when the Circular in question was issued as a remedy.

2. The akarband of the village was then forwarded to the Superintendent of Revenue Survey for fixing the assessment and making necessary alterations, but that Officer replied to say that although in cases of this kind necessary alterations in the akarband was desirable, yet there was no authority in Rule 27 of the Land Revenue Rules for registering separately the area and assessment of portions divided or separated from assessed waste lands. The objection taken to the proposal by the Survey Superintendent is rather technical. Rule 27 requires that sub or paki number should be given to portions divided off from a large survey field or number whereas the alterations in the akarband now suggested can be effected by giving the new field a separate number consecutive to the last survey number in the village. The above procedure is observed by the Survey Department in the case of *unassessed* waste and gomal lands and if the Government see no objection I beg to recommend that the principle may be made applicable to *assessed* waste lands also and that necessary orders may be issued accordingly.

3. The akarband and the survey map in duplicate of the village and the vernacular papers bearing on the subject are herewith submitted.

(11) Letter No 2010—581, dated 17th December 1897, from the Deputy Commissioner, Kolar district.

I have the honor to state that one Syed Ahmed Hassain, occupant of Survey No. 9 (dry) measuring 3 acres and 21 guntas assessed at Rs 6-8-0 situated in the village of Kampalapalli, Kasba hobli of the Srinivaspur taluk, having transferred by sale a part thereof, *viz*, 1 acre and 30 guntas to one Mahomed Abbas, has applied for the subdivision of the said portion which is less than the minimum fixed by Government.

2. Under para 1 of Rule 27 of the Land Revenue Rules issued under Sections 109 and 119 of the Revenue Code the minimum area in the case of dry lands allowed for subdivision is 2 acres. But para 3 of the same Rule provides for subdivision without limit for the purpose of transfer by sale, gift, division or otherwise among the several sharers. The word "*Sharers*" is very wide in its signification and is not generally confined to members of a family acquiring shares in the land by right of inheritance. It may happen for instance that a judgment creditor may acquire the undivided interest of a coparcener and then apply for the partition of his share, or a khatedar may dispose of a portion of the number to a stranger and enjoy the lands in common for many years and then ask for division of the land on the ground that the purchaser has enjoyed a share of the land. Under these circumstances, therefore, I beg to submit that it is desirable to have a ruling as to the interpretation of the word "sharer" in this para.

---

(12) Letter No 563, dated 23rd February 1898, from the Superintendent of Revenue Survey in Mysore, submitting his opinion on the above question.

I have the honor to acknowledge the receipt of Memo No 7027—R. 2280, dated 28th January 1898, from the Dewan's Office, forwarding for my opinion letter No. 2010—580 of the 17th December 1897, from the Deputy Commissioner of Kolar soliciting some ruling as to the correct interpretation of the word 'sharer" as made use of at para 3 of Rule XXVII of the Rules under the Land Revenue Code.

2. Presuming that my attempted interpretation of the intended meaning of para 3 of Rule XXVII will not be mistaken for any acquiescence in the principles and working of that Rule, the cancellation of which I have so consistently urged, I beg to offer the following remarks.

3. I regret to say that in my opinion, the framers of the Land Revenue Rules intended that the word "sharer" should be taken in its widest sense and that the unlimited subdivision allowed at para 3 of Rule XXVII should apply to all who actually shared the land, no matter how such share was acquired. Could the wording of para 3 be read to apply only to hereditary sharers I should be only too glad, because the injurious effect of the Rule would be proportionately lessened. Unfortunately however, I am not asked to say what the Rule ought to be but only to interpret the meaning of the word "sharer" as therein used. I am not surprised that the Deputy Commissioner of Kolar should entertain misgivings on so serious a matter, but I nevertheless entertain little doubt that in all districts, including Kolar, the most unlimited sub-

division has been allowed under para 3 of Rule XXVII, thus bearing out the interpretation which I most unwillingly put upon that Rule.

4. In the particular case under reference one Syed Ahmed Hussain (occupant, not sharer of Survey No. 9) has transferred by sale a part of that number to one Mahomed Abbas, an outsider before the sale. Of course if the word "sharer" means any one actually having a share, however acquired, both parties conform to para 3 of Rule XXVII by the simple expedient of giving and taking possession and they can have the land subdivided. This case serves to show the absolutely unlimited and never ending subdivision which may go on under this Rule.

5. Nowhere in the Code itself is even mention made of, much less provision made for, any "share" corresponding to the "share" laid down in Rule XXVII (3) which latter is an entirely new creation inconsistent with the Code but to which, however, inasmuch as the Rules under the Code have the force of law, a legal status has unfortunately to be accorded.

6. There is one point which I may note as casting some little doubt upon the real intention of Rule XXVII (3). In the "Remarks" explanatory of Appendix D, Form No. 1 at page 174 of the Rules under the Land Revenue Code it is directed that "subdivision of survey fields must "be effected on the same principle (*sic*) on which Phut Pahani of survey fields owned by more "than one khatedar is now made." The share recognised by Phut Pahani must (as is also the Rule in Bombay before subdivision can be claimed) be one already separately recognised in the village accounts, while the share which may be recognised under Rule XXVII is an entirely arbitrary one, in fact, as I have already said, quite a new creation There is evidently discrepancy between the explanatory remarks to Appendix D 1 Form No. 1 and Rule XXVII (3).

(13) Demi-official letter, dated 22nd March 1898, from the Superintendent of Revenue Survey.

I have taken a long time to put in writing the result of our discussion on 11th instant on Land Revenue Rule XXVII. The fact is, the matter required a good deal of thought and I had to look up the survey records from the commencement in order to arrive at a satisfactory scale of minima for the various classes of land. Overleaf I give my proposed version of Rule XXVII. After all, what we want to do is to reconcile the Rule to the Code and to give the Survey Superintendent the power and the facility of remedying any cases of hardship.

Both these, my proposed Rule provides for. I have inserted the words: "of his own motion" at para 1 because the Revenue authorities have been making sub-numbers in unoccupied assessed lands and I must search out and have all these made separate survey numbers. My great object is to get the work done properly. At present wet numbers are made and never brought on to the Akarband; land is assessed and water-rate fixed without any intimation being given to the Survey Department. I think it would be a good thing if the assessment to be fixed under Land Revenue Rule XVII and Rule XIX (2) could always be fixed by the Survey Department.

Kindly let me know if you approve of the Rule I have drafted and, if so, whether I should write in officially or whether you yourself will take the necessary action.

I append a slip showing the scale of minima I would suggest under Section 109.

Rule XXVII of the Rules under the Land Revenue Code, and Form 1 in Appendix D—1 to the Rules, is cancelled as provided for in Section 234, and the following substituted:—

XXVII. No survey number used for the purposes of agriculture shall be subdivided excepting as provided for in Section 109.

2. Subject to the provisions of Section 109 the Superintendent of Survey may, of his own motion, or on application by the parties interested, and for just cause shown, such as a survey number being of inconveniently large area for the purposes of cultivation or relinquishment or for any valid reason, subdivide any survey number into two or more survey numbers, in the manner laid down in Section 124, and separately measure, demarcate and assess the same.

3. All subdivisions of survey numbers used for the purposes of agriculture shall, until made into separate survey numbers, be subject to the provisions of Section 110 (*b*) and shall be regarded in all respects as recognized shares of survey numbers.

Under the provisions of Section 109 of the Mysore Land Revenue Code the following scale for the regulation of the subdivision of survey numbers is fixed.

No. 7035-43—R. 2308, DATED BANGALORE, 4TH APRIL 1900.

ORDER THEREON—On a careful consideration of the subject in all its aspects, Government approve of the amendment of Rule XXVII of the Land Revenue Rules as proposed by the Superintendent of Revenue Survey in his letter of the 22nd March 1898, and accordingly direct that the Notification given below be published in the *Gazette*.

2. The minima proposed for the subdivision of the several classes of lands have been properly fixed for the different districts and are approved.

3. The classification of lands ordered in the Chitaldrug district in view to facilitate the revision of rates should not be hampered by the subdivision of lands, and Government agree with the Superintendent of Revenue Survey that this work should be attended to separately.

No. 7044—R. 2309, NOTIFICATION, DATED 4th APRIL 1900.

The Government of Mysore are pleased to direct under clause (*n*) of Section 233 of the Mysore Land Revenue Code, that the following be substituted for Rule XXVII of the Land Revenue Rules, and that Form No. 1 (statement of subdivision of fields) given in Appendix D 1 to the Rules be cancelled.

"XXVII. 1. No Survey number used for the purposes of agriculture shall be subdivided excepting as provided for in Section 109.

Subdivision of Survey Fields.

2. Subject to the provisions of Section 109, the Superintendent of Survey may, of his own motion, or on application by the parties interested, and for just cause shown, such as a survey number being of inconveniently large area for the purposes of cultivation or relinquishment or for any valid reason, subdivide any survey number into two or more survey numbers, in the manner laid down in Section 124, and separately measure, demarcate and assess the same.

3. All subdivisions of survey numbers used for the purposes of agriculture shall, until made into separate survey numbers, be subject to the provisions of Section 110 (*b*) and shall be regarded in all respects as recognized shares of survey numbers.

4. Under the provisions of Section 109 of the Mysore Land Revenue Code the following minima for the subdivision of survey numbers are prescribed :—

1. *Land Revenue.*—The total demand under this head (inclusive of arrears at the beginning of the year) exhibits a net increase of Rs. 1,38,733 for the whole State notwithstanding a decrease of Rs. 40,422 in the Kolar district. In the Hassan, Shimoga, Tumkur, Chitaldrug and Kolar districts, the current demand is comparatively less to the extent shown below :—

Districts.	Current Demand.		
	Last year.	Current year.	Decrease.
	Rs.	Rs.	Rs.
Hassan	98,500	92,678	5,822
Shimoga	1,83,098	1,81,714	1,384
Tumkur	8,570	7,633	937
Chitaldrug	5,617	4,697	920
Kolar	13,466	12,917	549

The Deputy Commissioners of Hassan and Shimoga districts state that the decrease was under malki sales and sales of coffee jungles. The variations in the other districts are not considerable.

The collections as shown by the Deputy Commissioners differ from the Comptroller's figures to the extent noted below :—

Districts	As shown by the Deputy Commissioner.	As per Comptroller's return.	Difference.
	Rs.	Rs.	Rs.
Shimoga	1,60,619	1,59,643	+ 1,186
Mysore	87,199	86,939	+ 260
Hassan	1,08,260	1,08,040	+ 220
Kadur	1,57,699	1,57,630	+ 69
Kolar	63,272	63,302	— 30
Chitaldrug	7,306	7,315	— 9

The Deputy Commissioners are requested to adjust these differences, in communication with the Comptroller, if necessary.

4. The balances left uncollected in every Rs. 100 of the total demand is as noted below :—

Districts.	1898-99.	1899-1900.
Bangalore	64·5	50·7
Kolar	64·4	49·8
Tumkur	33·7	40·2
Mysore	54·5	54·9
Hassan	59·7	54·5
Shimoga	50·4	56·4
Kadur	46·8	39·2
Chitaldrug	20·4	29·5

The above figures show that the collection work does not compare favorably with that of last year in the Tumkur, Shimoga and Chitaldrug districts.

5. *Mohatarfa.*—The attention of the Deputy Commissioner of Mysore will be directed to the large uncollected balance of Rs. 10,771 under this head.

Correspondence ending with letter No. 641, dated 23rd March 1900, from the Deputy Commissioner, Kadur district, reporting that in February 1898, Mr. Weir, the then Deputy Commissioner, appointed H. Cheluviengar as Excise Inspector of the Chikmagalur taluk on Rs. 15+10, promising to take him to the Deputy Commissioner's office on an opportunity occurring, and that in filling up the Deputy Clerk's place in the District office, rendered vacant by the retirement of Mr. Middleton from 1st July 1899, he, in consonance with what was said to be Mr. Weir's view, appointed Cheluviengar as Assistant Record-keeper on Rs. 20, having found him to be physically not equal to the constant out-door work of the Excise Department.

No. 7263—R. 2410, DATED BANGALORE, 10TH APRIL 1900.

ORDER THEREON—Cheluviengar's promotion is opposed to Rules I and II of the Standing Order No. 3, dated 12th April 1888, which latter directs that, as among officials with service not exceeding five years, the order of preference laid down in Rule I shall be observed.

2. Under these circumstances, Government regret that they cannot see their way to confirm this promotion which must be set aside, another more eligible person being promoted to fill the vacancy.

Correspondence ending with letter No. 551, dated 20th February 1900, from the Deputy Commissioner, Kadur district, soliciting sanction to the grant for garden cultivation on full assessment of 2 acres and 16 guntas of land out of gomal survey No. 149 in the Baidavalli village, Mudgere taluk.

No. 7289-92—R. 2422, DATED BANGALORE, 11TH APRIL 1900.

ORDER THEREON—From the Assistant Commissioner's report submitted with the above, it appears that the applicant's intention is to plant cardamom on about 15 guntas of the land applied for, fit for such cultivation, and that as the minimum area prescribed for coffee and cardamom cultivation is 15 acres the applicant tries to evade the rule by asking for 2 acres and 16 guntas for garden cultivation. The case is similar to that dealt with in Government Order No. 6079—R. 1944, dated 22nd February 1900. Under such circumstances the present application must be refused.

2. In this connection, the attention of the Deputy Commissioner is called to the risk involved in granting such small bits of land for cardamom cultivation. The Deputy Commissioner should always find out whether it is to evade the restrictions as regards grant of land for cardamom cultivation that such applications are made and direct his enquiry with that object.

No. 7297—R. 2425, DATED BANGALORE, 11TH APRIL 1900.

ORDER THEREON—The interval between December 1899 and March 1900 is a long one and yet the Deputy Commissioner is not in a position to take specific action to afford relief to the persons who have been rendered homeless. Greater activity whan that has been shown in this correspondence is desirable.

Letter No. 548, dated the 20th February 1900, from the Deputy Commissioner, Kadur district, submitting report of the Inspector of Agricultural Banks, on the inspection of the Bank at Sakrepatna made by him on the 17th idem.

No. 7307-8—R. F. 68-97, DATED BANGALORE, 11TH APRIL 1900.

ORDER THEREON—Recorded with the followingbo servations:—

Report by the Inspector.	Observations.
Para VII. The deposits by members were not out of earnings or supplies, but made out of loans obtained from the Bank itself, that is, a larger sum than was actually required was obtained and a portion of it left in the bank as deposit, and of this again more than 50 per cent had been withdrawn for what purpose the Agent was not able to say.	Steps should be taken to encourage and secure real deposit.
XVII. Title deeds. Only one stray sale deed had been produced and it related to but 2 acres. The prior deeds referred to therein had not been produced. The importance of obtaining and examining title-deeds does not seem to be realized.	This should be insisted upon.
XX. (1) The Bank has not yet set apart anything for the reserve fund. The President and Agent promise to have this done at the end of next June.	(1), (2) and (3) require special attention.
(2) The Directors, though residing in Sakrepatna, do not meet for the consideration of Bank's business but record observations on papers circulated. The President and Agent say they will arrange to meet whenever there may be occasion for it.	
(3) List of property of new members has not been sent yet. They promise to give this on the registration of the five new members.	
There have been no complaints against the management of the Bank. The Amildar speaks well of the tact and ability of the President. There seems to be no discord among the members and the working of the Bank may be said to be satisfactory.	Satisfactory.

2. The attention of both the Deputy Commissioner and the Inspector of Banks is invited to para 9 of Government Order No. 2613-16—R. F. 122-97, dated 27th September 1898, with a request that the necessity of forming a reserve fund so that the Bank may, within a reasonable time, be able to repay the loan obtained from Government and carry on further transactions independent of Government help, may be pointed out to the members of this and other Banks similarly situated.

The following Memo, dated the 16th January 1900, of the Inspector of Agricultural Banks in Mysore on his inspection of the Agricultural Bank at Sargur, Heggadadevankote taluk, received with the Mysore Deputy Commissioner's letter No. 857, dated 17th March 1900 :—

MEMO ON INSPECTION OF THE AGRICULTURAL BANK AT SARGUR, HEGGADADEVANKOTE TALUK.

I. INCORPORATION AND REGISTERED OFFICE.

1. *Number and date of incorporation:*—No. 142, dated 4th June 1898.

2. *Is certified copy of Memo and articles kept in the Bank?*—Yes.

3. *Registered office at formation of Bank or last inspection:*—House No. 109, Sargur.

4. *Change, if any since, why made and whether registered:*—No changes.

5. *Remarks:*—The room in which the Bank is kept is not spacious enough for the requirements of the Bank. It is the dewankana of the agent's dwelling house. Information (vouched to some extent by private enquiry) reached me that music parties (sometimes graced by a dancing girl of Nanjangud) used to be held there not infrequently prior to the Amildar's inspection in September last. I should certainly have no objection to the agent and his friends having their pastime in the agent's premises but for the sake of the Bank's reputation, I should like to see the Bank office held in a separate house. The Bank has been paying rent for the room.

II. VILLAGES BROUGHT WITHIN BANK'S SCOPE.

1. *Number as per Memorandum of Association:*—Thirty-five.—Sargur and 34 other villages of Heggadadevankote taluk.

2. *Number subsequently registered:*—Nil.

3. *Remarks:*—The Bank resolved, at a meeting held in February 1899, on having 40 new villages registered but it had not made any formal application in this behalf to the proper authorities concerned.

5. Of those present on the Register at date of Inspection:—The Bank does not possess an accurate and complete list of the lands held by its members. It had admitted 38 new members in February 1899, without information as to the extent and value of lands held by them and this information it was unable to furnish even at the time of inspection. As regards the lands of the original members of whom 12 remain in the Bank, some (about 34 acres valued at Rs. 1,037) had been disposed of to others before the starting of the Bank and if the information that has reached the taluk authorities and myself is correct, there are some lands (about 118 acres) concerning which there is dispute of some kind or other to be investigated or explained. Again, the classification of lands into inam and non-inam in the original list was not accurate inasmuch as several lands shown as non-inam were situated in Sarva Inam villages but believed to be as good as Government patta lands. The lands of the twelve new members, whose extent and value are shown above have not been seen and valued by any Government Officer, and the Amildar considers that the value given by

the Bank in some of the instances in which loans had been given were too liberal. The lands of the old members also had not been inspected and valued regularly by any punchayet nominated by the taluk authorities, and the Amildar of the time had sheltered himself by the observation that the lands were, according to information furnished by men of experience, worth more or less the amount mentioned as their value but that it was not possible to say that the estimate was quite accurate. Thus, until lands of all the members (old and new) are inspected and valued and the register of property duly written up it will not be possible to say what the value is of the lands held by the existing members. Excluding from consideration the 38 members referred to above to whom no loans have yet been granted and making due allowance for errors and exaggerations, the value of the lands of the remaining 23 members may be estimated roughly at Rs. 30,000.

V. Bank's Funds.

1. *Maximum limit prescribed in Articles of Association:*—Rs. 16,000.

2. *Enhancement, if any, authorized and registered since:*—Nil.

3. *Enhancement applied for but not yet authorized:*—Rs. 14,000. (*Note.*—The Bank deemed this to be necessary in view of the admission of new members but it does not appear to have made formal requisition to the proper authorities for augmentation of its funds).

4. *Extent to which, if any, the limit prescribed had been exceeded unauthorisedly:*—Nil. At the time of inspection the operations of the Bank were under Rs. 14,500.

VI. Government Advance.

1. *Amount sanctioned under Government Proceedings No. 9197-200—R. F. 31-97, dated 26th March 1898:*—Rs. 16,000.

2. *Further sanction, if any:*—Nil.

3 *When and how the advance is proposed to be re-paid*:—No terms were fixed at the time of according sanction. In reply to a requisition from this office, the Bank states that it may require 20 years to repay the advance because the members grow mostly dry crop and no sugar-cane whatever; that some of them had been allowed 10 years to repay 1st class loans; that bad seasons had unfortunately intervened, and that additional loan had to be obtained to meet the requirements of new members. The term of 20 years is unnecessarily long. As instalments are recovered, the Bank ought to be in a position to repay material portions of the advance.

4. *Amount re-paid by Bank towards final reduction of advance:*—Nil.

5. *Amount actually outstanding against the Bank at date of inspection.*—Rs. 13,927-5-11. (*Note.*—The Bank had drawn from Treasury Rs. 15,127-5-11 and paid to the Treasury under current account Rs. 1,200.)

6. *Further advance, if any, applied for but not yet sanctioned.*—Rs. 14,000. (*Note.*—The application had not yet been submitted to Government, firstly as the Bank had not furnished a list of lands held by the new members on whose behalf the further advance is sought, and secondly as it had made no *bonâ fide* efforts to secure deposits.

VII.—Deposits.

1. *By Members.*—Nil.

2. *By Non-Members.*—Nil.

The explanations given are :—

(1) Distance of Taluk Treasury, 8 miles.

(2) Difficulty of fording the Kabbani during the rainy season.

(3) Expectation or pendency of applications for loans.

3. *Remarks.*—The Kabbani near Sargur is easily fordable and a bamboo ferry is also maintained there. The Bank maintains a clerk and a peon and some of its officers have frequent occasion to go to Heggadadevankote. Both orally and in writing, the President and Agent of the Bank have been warned of the importance of strict adherence to the rules of the Bank.

X.—Limit of Loans to Individual Members.

1. *Prescribed under Section 42 of Articles of Association* :—

	Rs.
2nd class loans	1,000
3rd do	1,000
4th do	50

All loans, including obligations as surety, not to exceed Rs. 2,000.

2. *Prescribed by Bank with reference to value of property.*—Fifty per cent generally. At a meeting of the General Assembly held on 19th June 1898, the Bank fixed the aggregate amount of loan grantable to each member and in doing so noted the value of property held and the debts payable by each.

3. *Instances of disregard, with explanations, if any.*—*(a)* Of the maximum of Rs. 2,000 prescribed in para 42 of the Articles of Association :—

(1) Venkatanagappa, (Director).
(2) Tirunarnaiengar.
(3) Appannaiya, (Agent).

All these have exceeded the limit by the amount of hand loans obtained by them, which are small.

(b) Of the special limits prescribed by the General Assembly :—

No.	Name of Member.	Amount sanctioned by General Assembly.	Loans given by Board of Directors exclusive of hand loans.	Amount re-paid.
		Rs.	Rs.	Rs.
1	Venkatanagappa (Director)	1,000	2,100	300
2	Lakshminarnappa (Director)	1,000	1,200	100
3	Tirunaraniengar (Auditor)	1,000	1,500	200
4	Appannaiya (Agent)	800	1,500	100
5	Dodde Gauda	800	1,500	100
6	Made Gauda	500	625	100
7	Chik Rudrasetty (Ag. Director)	300	400	60
8	Chik Bhadrasetty	300	350	75
9	Narasimhachar	300	325	65
10	Gurupadadevaru (Director)	350	500	80
11	Tirumalachar	300	630	170
12	Appajaiya	200	300	60

The explanation given for exceeding the sanctions accorded by the General Assembly is that in some cases larger sums had to be given to enable members concerned to discharge their *purvadis* (encumbrances) fully, and that in such cases additional security of houses, &c., was obtained. This explanation is far from satisfactory. The Directors had not obtained the sanction of another General Assembly to exceed the special sanctions of the General Assembly referred to above, nor were there encumbrances which could not be discharged by grants *within* the sanction accorded by the General Assembly, except in one case which required an addition of but Rs. 25. Comments on the purposes for which the loans were obtained or utilised will be noted under the next head.

XI.—Object for which loans were obtained.

1. *Amount obtained to discharge debts.*—Rs. 12,890. (*Note.*—The encumbrances, as originally reported to Government, amounted to Rs. 3,945; while the debts of all members including encumbrances, as noted by the General Assembly in its proceedings of the 19th June 1898, amounted to Rs. 15,780).

2. *How the above amount was utilised* :—

		Rs. a. p.			Rs. a. p.
1	To discharge encumbrances .. (Note.—Those of President Venkatasetti originally estimated at Rs. 1,500 and now at Rs. 2,400 have not yet been discharged).	3,069 4 0	6	To redeem jewels pledged on plain paper chits. (Note.—The receipts obtained under these chits are unstamped. The Agent has been told to obtain stamped vouchers).	414 8 0
2	To simple money bonds and pronotes.	2,139 10 0	7	Alleged to have been used to redeem jewels concerning which no vouchers of any kind are forthcoming. (Note —one single item of this sort alone amounted to Rs. 850, although according to the General Assembly list the member concerned had no debts to discharge,)	1,500 0 0
3	To Government on account of toddy contract, toll contract, &c.	1,698 2 8			
4	To cloth merchants at Bangalore and Salem.	75 0 0	8	Alleged to have been used to repay sundry debts about which no vouchers of any kind are forthcoming.	2,042 0 0
5	To Court towards purchase money due by a third party.	68 4 0	9	Unaccounted for	1,783 3 4

3. *Amount obtained for agricultural purposes.*—Rs. 4,146.

4. *How the above amount was utilised* :—

		Rs.			Rs.
1	Advance to cultivators ... (Note.—One single item of this kind amounted to Rs. 500, an Idigar and toddy contractor being alleged to have advanced Rs. 500 to servants cultivating lands. No vouchers have been produced in regard to many of these cases.)	1,413	5	To buy carts	255
			6	To buy manure	225
			7	For improvement of garden ...	85
			8	To buy food grain for servants ...	71
			9	For fencing	55
2	To buy bullocks and cattle ...	1,290	10	For digging	55
3	To buy seed	320	11	To repair of tank	20
4	To level ground	342	12	To repair of nala	15

5. *How the Bank satisfies itself as to the proper application of loans obtained by members* :—The President and the Agent say that necessary *ajamaishi* had been made but it would have been better if the members had secured receipts or other vouchers in all possible cases and produced them at the Bank. As it is, in regard to a very large number of cases the *ipse dixit* of the members concerned or the Agent has to be accepted.

6. *Instances of misuse, if any.*—Glancing through the above two lists showing application of loans obtained, and bearing in mind the nature of complaints received, one cannot help surmising that there had been several instances of misuse, but these cannot be laid bare unless a very prolonged enquiry is held. There was a specific complaint against the Agent that he was employing the funds for trading purposes. He denied the truth of this but from what has been elicited in the proceedings enclosed in a sealed cover the complaint does not appear to be altogether groundless.

XII. Interest and Penalty.

1. *Rates prescribed.*—1st class loans 5½, 6 per cent; 2nd class loans 6, 7 per cent; 3rd class loans 7, 8 per cent; 4th class 5 cash per cent per day. Penalty.—Adding to rate of interest half as much from date of default.

2. *Whether these had been duly levied* :—The interest is collected in advance. The whole due up to the end of June 1899 had been collected. That for the half year ending 31st December 1899, had also been collected save a sum of Rs. 24-12-0 only. The amount of penalty recovered during the period of 15 months was Rs. 33-14-0.

XIII. Instalments.

1. *Different periods allowed and the number of cases falling under each* :—5 years—15 cases (*i. e.*) of loans of Rs. 500 and under; 10 years—6 cases (*i. e.*) of loans exceeding Rs. 500.

2. *Explanation as to ordinary limit of five years being exceeded* :—That the crops ordinarily raised in the taluk being for the most part dry and not very remunerative, there would not be enough of surplus left to repay the larger loans earlier.

3. *Arrears of instalments, if any, how old and number of defaulters* :—The first instalment was due and it has been paid by all.

XIV. Pro-Notes.

1. *Pro-notes (original)* :—No. 12, amounting to Rs. 2,590.

2. *Re-paid without renewal* :—Number of cases 3, amount Rs. 300. In one case part payment of Rs. 100 was made out of Rs. 500 due and the balance of debt renewed.

3. *Cases of renewal* :—For 1st time, cases 2, amount Rs. 600; for 2nd time case 1, amount Rs. 100; for 3rd time case 1, amount Rs. 500.

4. *Explanation and remarks as to violation of Rules, want of punctuality, &c.* :—The want of punctuality will be seen more glaringly when the hand loans to be next noticed are also taken into consideration. In nine cases there was only one surety while para 49 of Articles of Association requires two.

XV. Hand Loans.

1. *Loans (original)* :—Forty-three cases amounting to Rs. 1,455;

2. *Re-paid without renewal* :—Nine-teen cases amounting to Rs. 630.

3. *Cases of renewal* :—For 1st time No. 12, amount Rs. 410; for 2nd time No. 4, amount Rs. 120; for 3rd time No. 3, amount Rs. 125; for 4th time No. 4, amount Rs. 120.

4. *Number overdue, neither repaid nor renewed* :—One case amounting to Rs. 50 which had become due after three renewals.

5. *Remarks* :—Repeated renewals of even small loans of Rs. 15 or Rs. 20 allowed in this Bank is an unsatisfactory feature in the working of the Bank.

XVI. Mortgage Deeds executed to the Bank.

1. *Number of Mortgage Deeds executed to the Bank* :—21, involving Rs. 11,300.

2. *Extent and value of property Mortgaged to Bank* :—

	A.	g.	Rs.
(a) Lands entered in the original property list submitted to Government and valued by the then Amildar.	342	22	12,610
(b) Lands not entered in the said list belonging to old and new members valued roughly by the Bank together with the houses referred to below.	201	32½	15,507
(c) 18 houses (11 of Sargur, 1 of Magge, 2 of Haleyur 3 of Bidagal, 1 of Sagare).	...	...	28,117

3. *Are the documents in proper form and duly registered* ?—The mortgage deeds are duly registered. A form furnished from this office is said to have been used in drawing them.

XVII. Title Deeds (*i. e.*) Sale Deeds, Pattas, &c., produced by Members.

1. *Number and nature* :—8 Sale deeds.

2. *Extent of lands in respect of which these have been produced* :—125 acres and 12 guntas only.

3. *Extent in respect of which title deeds have not been produced* :—419 acres, and 2½ guntas of land, and 18 houses, out of property mortgaged to Bank, besides lands and houses not mortgaged.

4. *Explanation and Remarks* :—As regards ancestral lands only pattas are said to be forthcoming. The production and examination of title deeds is not apparently considered to be an important duty of the Directors who authorise grant of loans. They have been told that all title deeds whether pattas or other documents should be inspected by the Bank and kept in the Bank with a proper catalogue, unless any of the pattas are required for immediate current use.

XVIII. Meetings of the General Assembly.

1. *Date of first meeting after incorporation* :—19th June 1898.

2. *Subsequent meetings* :—One on 14th July 1898; one on 19th February 1899; one on 29th July 1899.

3. *Any requisition from members for convening extraordinary meetings* :—Nil.

4. *Are notices duly given and filed* ?—They are reported to be duly given but no office references are kept.

5. *Are proxy chits furnished by absent members and filed* ?—There were no instances of these being filed.

6. *Were any meetings defeated for want of quorum* ?—None.

7. *Are Resolutions duly recorded, confirmed and registered* ?—The Minute Book shows they are. One Venkatramaiya, a member who had been removed from the Bank, stated that signatures used to be taken to blank pages of the Minute Book and proceedings entered therein in the absence of members. The Agent and others urged that this was an unfounded complaint. From the way in which minutes are recorded and signatures affixed in the book one does not feel disposed to give credit to the complaint.

8. *Any resolution inconsistent with the Articles of Association or improper.*—Nil.

XIX. Registers and Books kept in Bank Office and Remarks.

1. Certified copy of Memo and Articles of Association.
2. Register of members.
3. Minute book.
4. Cash book.
5. Ledger.
6. Cheque book.
7. Receipts granted to the Bank.
8. Do by the Bank.
9. Treasury Pass book.
10. Chalan book.
11. Register of property.
12. Do applications.
13. Do documents.
14. Balance sheet.
15. 'From' and 'To'.
16. Nomination of Directors.

2. *Remarks.*—In the Ledger 4 items of cash payments to the Bank had been omitted. These and a few minor errors, &c., noticed were pointed out and have been rectified. In the case of renewal of loans (2nd and 4th class) the transaction so far as it relates to the principal sum is not shown on either side of the cash book. Merely the receipt of interest is entered. The office copy of the balance sheet was not signed by anybody nor did it contain the Auditor's certificate The property register has to be re-written after enquiry and needful revision as to extent, title and value.

XX. Notes as to whether errors, defects, &c., noticed at previous inspections had been rectified, whether any complaints had been received and investigated, whether members are earnest and unanimous, how the Bank is working, its prospects, &c.

The Bank was inspected by Mr. Tirumalachar, Assistant Commissioner, on 2nd March 1899, by the Amildar Mr. Krishna Singh and under his instructions by the Sheristadar of the taluk in September 1899, by Mr. A. Ananda Rao, Assistant Commissioner on 25th November 1899 and by myself from 25th to 27th December 1899. Mr. Chengiah Chetty in authorising the cashing of cheques which may be issued by the Bank in accordance with the sanctions accorded by the General Assembly in the Proceedings of the 19th June 1898, desired the Amildar to have an eye in regard to payment of loans to each member. This discretion the Amildar deemed it fit to exercise in regard to two of the cheques issued by the Bank, one dated 21st November 1898 in favor of Member Venkataramaiya for Rs. 1,000 and the other dated 30th March 1899 for Rs. 600 in favor of Member Basave Gauda. As regards the former the Amildar gave a friendly hint to the President and the Agent that the Bank would do well to keep in its hands the amount required to discharge encumbrances and apply the same for that purpose instead of paying the whole of the sanctioned loan to the member. The President and Agent stated that the mortgagee, one Lakshman Rao, had sent the mortgage-deed (for Rs. 500) to the Post office per Value Payable Post and that the entire amount (Rs. 1,000) of the cheque might unhesitatingly be paid to the Member Venkatramaiya. Not being satisfied with this reply, the Amildar made a reference to this office and while this was under disposal three persons other than Lakshman Rao came forward to urge their claims as mortgagees in possession of some of the lands hypothecated to the Bank by Venkatramaiya. The enquiries made showed that the person from whom Venkatramaiya had purchased the lands was but a lessee and was moreover not in a position to transfer possession to Venkatramaiya, whereupon the Bank withdrew its cheque and dismissed Venkatramaiya from membership, for fraudulent concealment of facts. Venkatramaiya, who at first complained strongly against the Amildar's action now complains of the Bank's action, but it is not necessary here to discuss the questions raised as between him and the Bank in regard to the withdrawal of the cheque and his removal; suffice it to note that the Directing Board failed egregiously to make the necessary enquiry as to title and possession before accepting the security of the lands and granting the cheque. In the other instance the Amildar from enquiry at the Sub-Registrar's office was not satisfied as to the title of the Member Basave Gauda to certain lands hypothecated by him to the Bank and called for information. This was on 31st March 1899. The Bank gave no reply to the Amildar but cancelled the loan itself on an application presented by Basave Gauda on the 3rd April 1899. The Amildar, on coming to know of this at the inspection he made in September, concluded, as any other would under the circumstances naturally do, that there was a clear attempt to cheat on the part of the member and to shirk enquiry on the part of the Directing Board. The Bank has since discovered that in respect of the land in question the name of a wrong village had, by mistake, been entered in the Property Register and in the document and urges that the member withdrew his application for loan as in the interval (two days) some of his debtors had paid him what was due by them. The explanation as to the mistake made may be accepted, but the Bank

was clearly at fault in not exercising due care in preparing its Property Register and getting the hypothecation deed drawn up. Other material irregularities, &c., noticed by the Amildar are :—

(1) That the President and Agent had collusively allowed member Agasar Basava to convey away to a third party one of the lands hypothecated by him to the Bank for a loan of Rs. 300.

The explanation given is that as his brothers who were helping him left the place, Agasar Basava found it difficult to cultivate the land; that as there was a good offer for it he determined to sell it and was permitted to do so on his promising to pay over the amount of price to the Bank; that Agasar Basava accordingly paid the price obtained, Rs. 150, to the Bank; and that out of this Rs. 100 was credited towards the first instalment of the 1st class loan (Rs. 300) and Rs. 50 towards the 4th class loan due by him. Elsewhere there have been instances of conveyance of this kind of lands hypothecated to the Bank and I intend applying for instructions separately as to what needs be done to protect the interests of Government; but it may here be noted that the action of the President and Agent in allowing the price to remain unpaid to the Bank for four or five months after the execution of the document and in crediting the bulk of the amount towards the 4th class loan and ordinary instalment, which ought to have been paid out of earnings, was anything but business-like. For the balance of Rs. 200 due from the member there is security of another land and a house valued by the Bank at Rs. 590.

(2) That member Made Ganda had fraudulently included in his application for loan certain lands which had passed out of his hands. It is explained that one of the lands, No. 90, had been disposed of in the interval between the submission of proposal for establishment of the Bank and the sanction of Government; that the land had accordingly been omitted from the schedule to the hypothecation deed and that the application had been drawnup with reference to the Property Register in which the necessary correction had not been made. The other lands, seven numbers and a house, which have been mortgaged to the Bank are said to be the undisputed property of the member though the patta of one of the numbers is in the name of a third party. Here again there was carelessness in the preparation of the Property Register.

(3) That the title of member Chikbhadra Setti to the land hypothecated by him was not clear. A certified copy of the sale deed executed in 1888 by the Khatedars in favor of the member's vendor has since been produced, but the non-production of the original has not been explained.

(4) That the land hypothecated by member Bale Rudra Setti had not been duly transferred by the Khatedar, the Agent of the Bank, to the member. It is explained that the land formed part of a large number bought at revenue auction in the Agent's name by the Agent and others; that application for phoding the land had been presented two years ago, and that the Agent had attested the member's hypothecation deed to the Bank in recognition of the member's independent right to the land.

(5) That the President Venkata Setti was but a pauper, all the lands mentioned in his list having passed out of his possession. It is admitted that the creditor mentioned in the original property list of the President had since obtained a decree against him for nearly Rs. 2,400 and purchased in Court auction many of the lands mentioned in the list and that he was likely to proceed against other lands; but it is explained that the creditor had promised to effect a private settlement on terms favorable to Venkata Setti and that the latter intends obtaining from the Bank such loan as it can give on security of certain property alleged to be free from Court attachment or other lien, and making up the balance by other means at his command. Information has been received as to certain lands alleged to be free from others' lien, having been conveyed long ago by Venkata Setti to a third party under a registered deed, and this will be enquired into in connection with the revision of Property Register. He has now obtained from the Bank a 1st class loan of Rs. 275 on the security of a house and certain lands attached to it and containing graft mango trees in the town of Sargur about which there is no dispute. Mr. Tirumala Char, Assistant Commissioner, considered this security insufficient and stated that unless it was supplemented, the loan ought to be recovered. Venkata Setti has not been able to give additional security of a tangible nature, apparently owing to the action of his creditor, but after seeing the house and the planted lands attached to it, I do not consider it necessary to interfere with the Bank's discretion in the matter.

(6) That in many cases the Directors had acted high-handedly against rules, and through partiality had granted loans upon exaggerated valuation of property. It is urged that the valuation by the Bank would stand any test properly made on inspection, that the

Directing Board was not guilty of any intentional violation of rules and that any sins of omission and commission which may be brought home to it were due to ignorance of rules and procedure. But a plea of this kind cannot excuse instances of disregard of limitations prescribed by the Articles of Association and by the General Assembly, and, so far as I could see, it was not possible to say that the Board had not in some cases granted loans beyond proper requirements or accepted doubtful, if not untrue, explanations as to application of loans obtained.

(7) That in some cases members were allowed to execute pro-notes or enter into hand-loan transactions to meet the demand for instalments, &c., and these were again allowed to be renewed frequently. Facts already noted show that there was great laxity of this kind.

There had been complaints preferred and imputations made by Venkatramaiya referred to, by one Chik Viraiya and by a Shanbhog of Sargur. The first had mixed truth with falsehood and withdrawn from the enquiry I proceeded to make; the second who complained of forgery and false personation had retracted his allegations *in toto*, and the third was admittedly not on good terms with the President and Agent. Facts brought to notice touching the value of or title to lands of members have been noted by the taluk authorities for investigation. One grave allegation which, during my private enquiry had received some corroboration, will be noticed here. The Agent is stated to have levied contributions from persons desiring admission; he and others denied it at the open enquiry; one member on good terms with him, when privately questioned, stated, however, that he was asked to contribute on the ground that Rs. 100 at least had to be collected for payment to taluk Officers, but that he resolutely declined to pay anything; another member, apparently equally well disposed, stated that Rs. 10 had been obtained from him on the ground that expenditure had been incurred for conciliating officials and had to be made good. That the pretence on which the contributions were asked for or levied was false may be inferred from the following statement of the President—"If such collections had really been made *and used for the purpose suggested*, they (Bank people) would not have been in the present plight."

In the working of the Bank there was thus much to cause disappointment and regret. I may here note what Mr. A. Ananda Rao had thought of the working of the Bank: it did not appear to be in a satisfactory condition and he had advised the Agent and a few Directors whom he saw "to put the Bank into a satisfactory condition and thus evince their gratitude to the Government in having started such institutions."

May the present Board of Directors (including President and Agent) be trusted to do this is the question. They insinuated that their difficulties were due to their inability to continue their exertions to conciliate taluk officials and asked that a dispassionate view might be taken and the Bank allowed to work its way on with the aid so benevolently granted by Government. I have endeavoured to take such view and feel disposed to regard the insinuation as a compliment to the taluk authorities who had taken an interest in the Bank and done their best to check the misuse of power and opportunities by some of its officers.

The President and Agent, more than once asked me to consult certain officers, if necessary, as to their respectability and character. The record shows that Mr. Ramachandra Rao, in the course of his recommendations for the establishment of the Bank, spoke highly of the character of these and other members who then constituted the Bank. But there was temptation to deviate from the right course when they actually came to be in possession of large sums of money and power to deal with them, and my impression is that it had not been effectively withstood.

As the Amildar thinks that there are some good men among the old and new members, the General Assembly might be given an opportunity to appoint a new set of office bearers and rectify irregularities, and if they fail to do so within a reasonable time, the support of the Government ought to be withdrawn.

The Bank had, shortly after my return, collected Rs. 798-13-0 towards instalments and interest, paid the interest due to Government Rs. 244-7-2 and used the bulk of the balance, Rs. 550, for the granting of fresh 2nd class loans. I shall ask the President and Agent to defer granting further loans and lodge all collections in the Treasury pending the convening of the General Assembly.

No. 7618-19—R. F. 31-97, DATED BANGALORE, 24TH APRIL 1900.

ORDER THEREON—Government observe that it is highly disappointing that the Deputy Commissioner has simply sent up the Note of Inspection without any remarks or suggestions of his own.

2. It is satisfactory to note that the Taluk Amildar has been evincing interest in the Bank affairs and guiding the management with wholesome advice.

3. The Inspector's enquiry and notes are full and exhaustive and enter deep into the affairs of the Bank and the following are the important points calling for particular attention :—

Para I of the Memo.—The Bank should be located in a building different from the Agent's house.

Para IV of the Memo.—The lands of both old and new members should be inspected by the Assistant Commissioner in charge of the taluk or by the Amildar with the aid of a panchayet, and an accurate Register thereof with valuation, &c., should be maintained. Only lands in respect of the title to which there is no contest should be taken into account.

No new members should be admitted otherwise than after the observance of the prescribed formalities.

Para VI of the Memo.—Provision for the repayment of the Government advance in 15 years should be made at once by putting by the requisite amount of instalments as a reserve fund.

Bonâ fide attempts to obtain private deposits should be made by the Bank.

Para IX of the Memo.—The limit of cash balance in the Bank prescribed by the Rules should under no circumstances be exceeded. The explanation offered is unsatisfactory.

Para X of the Memo.—All loans in excess of sanctions accorded by the General Assembly should be recovered at once. Such irregularities should never in future be allowed to occur.

Para XI of the Memo.—Misuse of loans obtained from the Bank should never be permitted or connived at.

Paras XIV and XV of the Memo.—Strict punctuality in repayment should be invariably insisted upon.

Para XVIII of the Memo.—Notices of meetings should be filed in the Bank's office.

Para XIX of the Memo.—Strict accuracy of entries in Registers, &c., should be enforced.

Para XX of the Memo.—The adequacy or otherwise of the security offered should be carefully scrutinized. Disposal of lands hypothecated to the Bank should be prevented.

4. The Bank's affairs are not satisfactorily managed, and the President Agent and other office bearers are not all that they should be. The Directors and the Agent should be such as are absolutely and entirely free from reproach.

5. If the General Assembly does not take immediate steps to mend matters, the advance made by Government will have to be withdrawn. This should be clearly explained to the members by the local authorities who should further try to get improvements effected as quickly as possible in the above and other directions.

6. Another inspection should be made after six months and a further report submitted.

FINANCIAL

Proceedings of the Government of Mysore,

READ—

Correspondence ending with letter No. 2895, dated 6th December 1899, from the Comptroller to the Government of Mysore, regarding the preparation of an Annual Report on Stamp Revenues of the Mysore State on the lines of the Coorg Commissioner's Report for 1898-99.

No. 7422-3—FL. 999, DATED BANGALORE, 17TH APRIL 1900.

ORDER THEREON—In the correspondence read above the Comptroller appears to be of opinion that the statistics required for the preparation of the annual report on stamp revenues suggested by Government in No. 1733—Mis. 370, dated 5th August last, are not available from the existing returns rendered to his office and to the Superintendent of Stamps. On an examination of the returns Government observe that with the exception of a few minor details the information required as regards all important items of revenue, both under the head of General Stamps and Court fees, are available from the existing returns prepared in the Stamp Superintendent's office and in those rendered to the Comptroller by the District Treasury Officers. The report of the Coorg Province contains two statements A and B, of which the former exhibits details of the stock, receipts, issues and balance in hand at the close of the year, of the several descriptions of stamp papers, labels, &c., and the latter gives details of receipts and expenditure under "Stamps."

2. As regards the first statement A all the information embodied therein, with the exception of that relating to bills of exchange, will be found in the annual abstracts prepared in the office of the Superintendent of Stamps, some of which are, it is believed, based on the returns forwarded to him by the Comptroller every year. Statement B which gives details of receipts and charges under "Stamps" can likewise be prepared upon the said abstracts and other returns received in the Comptroller's office. The marginally noted monthly returns which are furnished to the Comptroller by the District Treasury Officers as well as other returns showing the expenditure on account of discount allowed on sale of stamps, &c., refunds granted and charges incurred on account of establishment, contingencies, cost of water-mark papers obtained from England and other places, &c., furnish the necessary information required for the preparation of the said statements A and B. The items relating to one-anna stamps for bills of exchange or hundies, which do not appear to be in use in this State, and any other particulars which are not applicable to the Mysore State, may be omitted from the statements.

1. No. 39 (Financial) showing the fees, fines, &c., received in the District and Taluk Treasuries from the several Local Courts.
2. No. 49 (Financial) showing the sales of Mysore Stamp papers.
3. No. 50 (Financial) do Court Fees stamps, labels and papers.
4. No. 51 (Financial) do stamp receipts, transfer labels, &c.

3. With the foregoing remarks, the Government are pleased to direct that the Comptroller will be so good as to furnish the necessary details for the year 1898-99, as compared with those for 1897-98 to the Superintendent of Stamps who will, with the information thus furnished by the Comptroller and that obtained from the Officer in charge, Manufacturing Department, prepare statements in forms A and B above referred to for the year 1898-99, the figures being compared with those for the previous year, and submit the same to Government as early as practicable,

together with another statement showing the number and value of stamp papers labels, receipts, transfer stamps, foreign bill labels, &c., in stock in the Stamp Superintendent's office, those manufactured and issued during the year and the balance remaining in the Stamp Superintendent's office at the end of the year. This statement also furnishes details of balance of stock remaining in the District and Taluk Treasuries after deducting sales from the supplies received. All these statements should continue to be submitted to Government annually hereafter within the date prescribed for submission of the Annual Administration Report.

FOREST

Proceedings of the Government of Mysore,

READ—

Letter No. 3144—42, dated the 22nd March 1900, from the Conservator of Forests in Mysore, soliciting sanction to the reduction from 6 to 3 pies per head-load of fuel removed from the State Forests in the Kolar district up to the end of September 1900.

No. 7382—FT. F. 97-95, DATED BANGALORE, 16TH APRIL 1900.

ORDER THEREON—Sanctioned, with the observation that the Sub-Division Officer's requisition is very vague. He ought to have mentioned the number and class of persons dependent upon this kind of livelihood and whether the locality where they sell is not capable of meeting a rise in the price of wood-fuel also. In such a case, these laboring carriers will not suffer and there is no cause for relief.

Letter No. 2822—234, dated the 28th February 1900, from the Conservator of Forests, in Mysore.

No. 7383—FT. F. 8-96, DATED BANGALORE, 16TH APRIL 1900.

ORDER THEREON—With the above, the Conservator submits a memo showing that a sum of Rs. 6,192-3-9, is due by Contractor Iyasami Mudliar for wood supplied to him. The Deputy Commissioner, Mysore, recommends that Iyasami Mudliar be permitted to pay Rs. 1,000 in June 1900 with interest due up to date and the balance by annual instalments of Rs. 1,000 to be paid before the end of June of every year till the whole amount is liquidated. The Conservator has no positive objection to the grant of the above concession but is doubtful whether it is likely to benefit Iyasami Mudliar, considering that he has not fulfilled any of his former promises to liquidate his debts and solicits orders in the matter.

2. Government observe that the Contractor has apparently no sense of the obligation to pay the Government its dues He has defaulted so often without making an effort to meet the demand even partially. Continuing the concession under the circumstances would seem to have no effect upon him. If he pays up Rs. 1,000 plus all interest at once, further recommendation may be submitted. If he fails to pay up the amount before the end of June, due measures will be taken to recover the whole amount due. The matter has been unnecessarily allowed to drag on without any effective action being adopted for the recovery of the amount due to Government.

Letter No 2853—353, dated the 2nd March 1900, from the Conservator of Forests in Mysore, stating that on a proposal made by the District Forest Officer, Kadur, in March 1897, Colonel Campbell Walker accepted a general reduction of retail rates for the sale of timber and bamboos in the Depots of the Kadur district, on the ground that the revenue from this source had fallen off partly on account of the inferior quality of timber collected and partly owing to the prohibitive retail rates, and that the reduced rates may continue for some time.

No. 7577 —FT. F. 54-95, DATED BANGALORE, 23RD APRIL 1900.

PETITION

Proceedings of the Government of Mysore,

No. 7711-18—P. F. 70-99, DATED BANGALORE, 27TH APRIL 1900.

ORDER—It has been brought to the notice of Government that the practice prevails in the Kadur district of entrusting to the shekdars revenue sales in which the aggregate value of the property notified for sale exceeds Rs. 50, the value however of each of the survey numbers or lots comprised in the property not exceeding Rs 50 The Government consider that the practice is erroneous, being opposed to the clear provisions of the Land Revenue Rule XLI (para 1) and to the ruling* of Government in Appeal No 103 of 1893 94, and direct that it be discontinued.

*[illegible] Land Revenue Proceedings of Government for August 1894

MILITARY

Proceedings of the Government of Mysore,

No. 1812-50—F. 44 of 1899-1900, DATED BANGALORE, 3RD APRIL 1900.

ORDER—In addition to the Government carriages and horses maintained as part of the establishment of Government horses and intended primarily for the use of Government guests, the Military Assistant will, in future, keep up separately:

21 Pony Victorias, with
36 Pairs of Ponies.

The ponies will be transferred for this purpose from the Transport Branch and they will be maintained by the Military Assistant in a condition always fit for immediate re-transfer when required for transport purposes on mobilization.

II. The victorias to be maintained as above are intended for the convenience of Government Departments and Officers and it is desirable that their maintenance and use should be placed on a purely business footing. The Military Assistant is accordingly authorized to charge for the use of these vehicles on all occasions whether lent for Government guests or for other public purposes or for purely private use.

Government Officers obtaining the loan will, in every case, pay for the same (recovering the money from the Government Department concerned, when the carriages are used for *bonâ fide* public purposes of that Department).

III. The occasions for which, and the Officers by whom, the loan of these carriages may be applied for, will be regulated by the Military Assistant with due regard to the efficiency of the establishment and the convenience of all interested, any questions of general principle being referred to by him for the orders of Government.

IV. The proposed arrangement of lending carriages to Government Officers is a concession, and the Government will not be responsible for any accident whatsoever arising in the use of the same.

V. The rates to be charged for their use will be:—

Annas 8 per pony from 6 A.M. to 12 noon.

Annas 8 per pony from 12 noon to sunset.

Annas 12 per pony from sunset to midnight.

(*a*) Fresh ponies will always be supplied at midday and sunset.

(*b*) Double fees will be charged for ponies kept over time.

(*c*) Ponies posted for dak will be charged for at the rate of one rupee per diem, plus railway charges etc., if any, and servants' batta at annas 2 per diem per man.

VI. "Driving" ponies may be lent to another Department or to Officers in accordance with the rules published overleaf for loan of ordinary transport ponies.

By Order,
R. G. JONES, MAJOR,
Military Assistant.

RULES FOR THE GRANT OF TRANSPORT PONIES TO OFFICERS AND OFFICIALS OF THE MYSORE GOVERNMENT AND RESIDETS IN THE MYSORE PROVINCE.

I. Officers and other gentlemen will be allowed the use of one or two ponies on condition of their paying for their keep and the following sums:—

> If taken for a period of at least six months, Rs. 3 per pony; for more than three months and less than six months, Rs. 4 a pony; for more than one month and less than three months, Rs. 5; and if only wanted for one month, Rs. 8. Payment to be made in advance on the 1st of each month, and no broken periods allowed.

The price of a transport pony is fixed at Rs. 250.

II. The pony to be kept in good condition and it should receive daily at least $2\frac{1}{2}$ measures of raw kulthi with a proper allowance of grass.

III. All ponies, if required for transport or other Government service, are liable to be withdrawn at once.

IV. If the Officer Commanding Mysore Troops finds that any ponies are in bad condition or look as if they were neglected, he will order them to be withdrawn at once and the party concerned will be liable to pay for their keep till they are got into proper condition again.

V. In the event of its being satisfactorily proved that a pony has been lamed or otherwise rendered useless for the service by reckless riding or driving, the party concerned will be liable to pay one-half the price of the pony, *viz*, Rs. 125, and in the event of a pony dying when in the charge of any one, from any disease, he will pay Rs. 25 to Government.

VI. No clothing or line gear will be supplied with the ponies.

VII. Applications for ponies to be made to the Officer Commanding Mysore Troops; applicants must intimate their acceptance of these conditions before the pony is handed over to them.

J. DESARAJURS, Lt. Col.,
Chief Commandant Mysore State Troops.

To—The Secretaries to the Government of Mysore.
All Heads of Departments.
The Deputy Commissioners of Districts.

4	265 M.	2	Mr. B. O. M. Deane, Madras.	Informing him that on Messrs. G. W. Deane & Co's representation the deposit of Rs. 1,000 made by them in connection with their application for a mining lease for mica, has been returned to them and stating that if he wishes an application for the same block of land to be registered in his name, it will be necessary for him to make a fresh application with the usual deposit.

Serial No.	Proceedings. No.	Date.	To whom sent.	Subject and Order.
5	267 M.	2	Comptroller ..	Returning, after note in this office, the gold sale accounts of certain Gold Mining Companies received with his Nos. 103 and 111, dated 22nd February and 11th March 1900, respectively.
6	268 M.	2	Mr. T. T. Leonard, 4, Gordon Avenue, Bangalore.	Acknowledging receipt of his two letters, dated 31st March 1900, applying for two prospecting licenses in the tracts adjoining the Ajjampur Block, together with two cheques on the Bank of Madras, Bangalore, for rupees five hundred each, being the fee in respect of the licenses.
7	174 G.	2	Chief Engr., Mysore.	Stating that certain alterations and additions are very much required for the Geological office on the Kolar Gold Field and requesting that they may be carried out before the contract for the building is finished.
8	176 G.	2	Comptroller ..	Requesting that Messrs. Coutts & Co., London, be instructed to pay Dr. John W. Evans, D. SC., LL. B., F. G. S., late State Geologist and Secretary to the Government of Mysore, Geological Department, on application, the gratuity of Rs. 6,000, sanctioned to him in Government Proceedings No. 148-9 G.—1899-1900, dated 7th March 1900.
9	177 G.	2	Military Asst. ...	Informing him in reply to his No. 1780—108-99-00, dated 28th March 1900, that it is not possible to send the tents to Mysore before the end of May, as they will be required for use in camp till then.
10	178 G.	3	Editor, *Mysore Standard.*	Informing him that no report of the Administration of the Geological Department for 1898-99 has been published.
11	269 M.	6	Mr. Francis Hogarth, of London, Bangalore.	Acknowledging receipt of his letter, dated 3rd April 1900, and informing him that the Government will be glad to give, for a period of one year from this date, the refusal of a mining lease of a strip of land in the Amble village of the Nanjangud taluk, to the south-west of the Woolagere Gold Mining Block, to the lessee of either the Woolagere or the Amble Mining Block. Also stating that the Government are at present unable to fix the price for such a lease and that they therefore leave it for future decision by mutual agreement between themselves and the lessee.

Serial No.	Proceedings.			Subject and Order.
